Notes

- Number excluded due to errors and omissions in gender for SAAP 'disability' clients (weighted): 1 client.
- Number excluded due to errors and omissions in gender for SAAP 'non-disability' clients (weighted): 5 clients.
- Number excluded due to errors and omissions in gender for all SAAP clients (weighted): 5 clients.
- Number excluded due to errors and omissions in cultural and linguistic diversity for SAAP 'disability' clients (weighted): 186 clients.
- Number excluded due to errors and omissions in cultural and linguistic diversity for SAAP 'non-disability' clients (weighted): 1,110 clients.
- Number excluded due to errors and omissions in cultural and linguistic diversity for all SAAP clients (weighted): 1,215 clients.
- A client may have reported a disability in one support period and not in another. They may also have provided a valid alpha code (unique identifier) in one support period and not another. Consequently the number of clients in the 'disability' client group added to the number of clients in the 'non-disability' client group will not equal the total number of clients.
- Figures have been weighted to adjust for agency non-participation and client non-consent.
- English proficiency group 1 countries: Canada, Ireland, New Zealand, South Africa, the United Kingdom and the United States of America.
- English proficiency group 2–4: countries excluding Australia that are not included in *English proficiency group 1*.
