2. Table excludes high-volume records because not all items were included on the high-volume form.
3. In groups of service types, an accompanying child may require more than one type of service within the group. Percentages for broad groups relate to all needs and not to support periods. For individual types of services, a need can be recorded only once within a support period, so percentages relate to accompanying child support periods.
4. Figures have been weighted to adjust for agency non-participation.

Acknowledgments

Sonia Marcolin prepared this bulletin with the assistance of Anne Giovanetti, Felicity Murdoch and Sergei Mitnik. Table programming and production were carried out by Qasim Shah and Andrew Powierski. Justin Griffin and Diane Gibson provided helpful comments on the drafts. The SAAP Information Sub-committee and the Australian Government Department of Family and Community Services provided valuable support and comments throughout the development and drafting of this bulletin. Finally, the vital role played by data providers is acknowledged. This report draws together statistical material that could not have been produced without the efforts and cooperation of SAAP service providers and clients, who provided service and client information.
