(a) Jurisdiction is based on the postcode of the care recipient.

Note: As care recipients receive more than one type of assistance, the total per cent of clients is more than 100%.

(a) Jurisdiction is based on the postcode of the care recipient.

(b) This table includes only services measured by hours of assistance, therefore services such as 'delivered meals', 'linen deliveries', and 'transport trips' are not a consideration in this table. Some of these care recipients may have only received assistance that is not counted in hours. In addition, 551 (or 74%) of the 748 receiving no assistance were on leave at some point during the census.

(c) Calculated considering only those who received assistance.
