

Appendix 2: List of figures

Hospitals at a glance

Figure 1:	Separations per 1,000 population, public acute and private hospitals, Australia, 1994-95 to 2003-04	xi
Figure 2:	Patient days per 1,000 population, public acute and private hospitals, Australia, 1994-95 to 2003-04	xi
Figure 3:	Average length of stay, public acute and private hospitals, Australia, 1994-95 to 2003-04	xi
Figure 4:	Average length of stay for overnight separations, public acute and private hospitals, Australia, 1994-95 to 2003-04	xii
Figure 5:	Overnight separations per 1,000 population, Australia and selected OECD countries, 2002-03	xii
Figure 6:	Separations per 1,000 population, by age group and sex, Australia, 2003-04....	xii
Figure 7:	Change in the number of separations (per cent), by age group and sex, Australia, 1999-00 to 2003-04	xiii
Figure 8:	Average length of stay, by age group and sex, Australia, 2003-04.....	xiii
Figure 9:	Separations per 1,000 population, by Indigenous status and age group, Australia, 2003-04	xiii
Figure 10:	Separations per 1,000 population, by Remoteness Area of usual residence and hospital sector, Australia, 2003-04	xiv
Figure 11:	Separations for medical, surgical and other AR-DRGs version 5.0, public hospitals, Australia, 1999-00 to 2003-04	xiv
Figure 12:	Separations for medical, surgical and other AR-DRGs version 5.0, private hospitals, Australia, 1999-00 to 2003-04	xv
Figure 13:	Separations, by selected principal diagnosis, Australia, 2003-04.....	xv
Figure 14:	Selected potentially preventable hospitalisations per 1,000 population, Australia, 1999-00 to 2003-04	xvi
Figure 15:	Separations for selected procedures, Australia, 2003-04.....	xvi
Figure 16:	Separations for caesarean section and the proportion in private hospitals, Australia, 1999-00 to 2003-04	xvii
Figure 17:	Public hospital median waiting time, by specialty of surgeon, Australia, 2003-04.....	xvii
Figure 18:	Public hospital emergency department occasions of service seen on time (per cent), by triage category and public hospital peer group, Australia, 2003-04.....	xviii
Figure 19:	Emergency department occasions of service, by age group and sex, Australia, 2003-04	xviii
Figure 20:	Average annual change in the number of available beds, by type of hospital, Australia, 1994-95 to 2003-04.....	xix

Figure 21:	Average full-time equivalent staff, public hospitals, Australia, 1994–95 to 2003–04.....	xix
Figure 22:	Recurrent expenditure, public hospitals, Australia, 2003–04.....	xx
Figure 23:	Cost per casemix adjusted separation, Australia, 1999–00 to 2003–04	xx

Chapter 5: Non-admitted patient emergency department care

Figure 5.1:	Interrelationships of a <i>Resuscitation</i> emergency presentation with other data elements, selected hospitals, Australia, 2003–04	98
-------------	--	----

Chapter 6: Waiting times for elective surgery

Figure 6.1:	Interrelationships of a speciality of surgeon (cardio-thoracic surgery) with other data elements, all hospitals, 2003–04.....	117
-------------	---	-----

Chapter 8: Demographic profile for admitted patients

Figure 8.1:	Separations per 1,000 population, by age group, sex and reported Indigenous status, all hospitals, Australia, 2003–04.....	171
-------------	--	-----

Chapter 9: Principal diagnoses for admitted patients

Figure 9.1:	Interrelationships of a principal diagnosis (I21 <i>Acute myocardial infarction</i>) with other data elements, all hospitals, Australia, 2003–04	184
-------------	---	-----

Chapter 10: Procedures for admitted patients

Figure 10.1:	Interrelationships of a procedure (Block 671 <i>Transluminal coronary angioplasty with stenting</i>) with other data elements, all hospitals, Australia, 2003–04	215
Figure 10.2:	Proportion of separations with a procedure reported, by principal diagnosis and Indigenous status, all hospitals, Australia, 2003–04	237

Chapter 11: External causes for admitted patients

Figure 11.1:	Interrelationships of an external cause (X85–Y09 <i>Assault</i>) with other data elements, all hospitals, Australia, 2003–04	242
--------------	---	-----

Chapter 12: Australian Refined Diagnosis Related Groups for admitted patients

Figure 12.1:	Interrelationships of an AR-DRG (F15Z <i>Percutaneous coronary intervention without AMI with stent implantation</i>) with other data elements, all hospitals, Australia, 2003–04	259
--------------	---	-----

Appendix 3: Technical notes

Figure A3.1	Total cost per casemix-adjusted separation, public hospitals, 2002–03	299
-------------	---	-----
