

List of figures

Figure 1.1: Remoteness Areas of Australia.....	8
Figure 1.2: Population distribution in Australia, by ASGC Remoteness Area, 2001 (per cent)	8
Figure 1.3: Age distribution, by ASGC Remoteness Area, 2001	9
Figure 1.4: Age distribution for persons living in Major Cities, Inner Regional and Very Remote areas, 2001	10
Figure 3.1: 'All cause' SMRs for all people, by sex, 2002-04	20
Figure 3.2: 'All cause' SMRs for people aged less than 65 years, by sex, 2002-04.....	20
Figure 3.3: Average annual 'all cause' 'excess' deaths, by area, age group and sex, 2002-04	21
Figure 3.4: Average annual change in the ratio of observed to expected deaths due to 'all causes', 1992-2003	21
Figure 4.1: Deaths as a percentage of all deaths and 'excess' deaths, by type of neoplasm and Remoteness Area, 2002-04.....	47
Figure 4.2: SMRs for all neoplasms, by sex, 2002-04.....	48
Figure 4.3: SMRs for all neoplasms for persons aged 64 years and under, 2002-04	48
Figure 4.4: Average annual 'excess' deaths due to all neoplasms, by area, age group and sex, 2002-04	49
Figure 4.5: Average annual change in the ratio of observed to expected deaths due to all neoplasms, 1992-2003	49
Figure 4.6: Lung cancer SMRs, by sex, 2002-04	56
Figure 4.7: Lung cancer SMRs for persons aged 64 years and under, by sex, 2002-04	56
Figure 4.8: Average annual lung cancer 'excess' deaths, by area, age group and sex, 2002-04	57
Figure 4.9: Average annual change in the ratio of observed to expected deaths due to lung cancer, 1992-2003	57
Figure 4.10: Colorectal cancer SMRs, by sex, 2002-04.....	64
Figure 4.11: Colorectal cancer SMRs for persons aged 64 years and under, by sex, 2002-04.....	64
Figure 4.12: Average annual colorectal cancer 'excess' deaths, by area, age group and sex, 2002-04	65
Figure 4.13: Average annual change in the ratio of observed to expected deaths due to colorectal cancer, 1992-2003	65
Figure 4.14: Breast cancer SMRs for females, by sex, 2002-04	72
Figure 4.15: Breast cancer SMRs for females aged 64 years and under, by sex, 2002-04	72
Figure 4.16: Average annual breast cancer 'excess' deaths, by area, age group and sex, 2002-04	73
Figure 4.17: Average annual change in the ratio of observed to expected deaths due to breast cancer, 1992-2003	73
Figure 4.18: Cervical cancer SMRs for females, by sex, 2002-04.....	80
Figure 4.19: Cervical cancer SMRs for females aged 64 years and under, by sex, 2002-04	80
Figure 4.20: Average annual cervical cancer 'excess' deaths, by area, age group and sex, 2002-04.....	81
Figure 4.21: Average annual change in the ratio of observed to expected deaths due to cervical cancer, 1992-2003	81

Figure 4.22: Prostate cancer SMRs, by sex, 2002–04	88
Figure 4.23: Prostate cancer SMRs for persons aged 64 years and under, by sex, 2002–04.....	88
Figure 4.24: Average annual prostate cancer ‘excess’ deaths, by area, age group and sex, 2002–04.....	89
Figure 4.25: Average annual change in the ratio of observed to expected deaths due to prostate cancer, 1992–2003.....	89
Figure 4.26: Melanoma SMRs, by sex, 2002–04	96
Figure 4.27: Melanoma SMRs for persons aged 64 years and under, by sex, 2002–04	96
Figure 4.28: Average annual melanoma ‘excess’ deaths, 2002–04.....	97
Figure 4.29: Average annual change in the ratio of observed to expected deaths due to melanoma, 1992–2003	97
Figure 4.30: All other neoplasm SMRs, by sex, 2002–04	104
Figure 4.31: All other neoplasm SMRs for persons aged 64 years and under, by sex, 2002–04	104
Figure 4.32: Average annual all other neoplasm ‘excess’ deaths, 2002–04.....	105
Figure 4.33: Average annual change in the ratio of observed to expected deaths due to all other neoplasms, 1992–2003	105
Figure 5.1: Each type of circulatory disease death as a percentage of all deaths and ‘excess’ deaths, by Remoteness Area, 2002–04	114
Figure 5.2: Circulatory disease SMRs, by sex, 2002–04	115
Figure 5.3: Circulatory disease SMRs for persons aged 64 years and under, by sex, 2002–04	115
Figure 5.4: Average annual circulatory disease ‘excess’ deaths, by area, age group and sex, 2002–04.....	116
Figure 5.5: Average annual change in the ratio of observed to expected deaths due to circulatory disease, 1992–2003	116
Figure 5.6: Cerebrovascular disease SMRs, by sex, 2002–04	123
Figure 5.7: Cerebrovascular disease SMRs for persons aged 64 years and under, by sex, 2002–04	123
Figure 5.8: Average annual cerebrovascular disease ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	124
Figure 5.9: Average annual change in the ratio of observed to expected deaths due to cerebrovascular disease, 1992–2003.....	124
Figure 5.10: Coronary heart disease SMRs, by sex, 2002–04	131
Figure 5.11: Coronary heart disease SMRs for persons aged 64 years and under, by sex, 2002–04	131
Figure 5.12: Average annual coronary heart disease ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	132
Figure 5.13: Average annual change in the ratio of observed to expected deaths due to coronary heart disease, 1992–2003	132
Figure 5.14: All other diseases of the circulatory system SMRs, by sex, 2002–04.....	139
Figure 5.15: All other diseases of the circulatory system SMRs for persons aged 64 years and under, by sex, 2002–04.....	139
Figure 5.16: Average annual ‘excess’ deaths for all other diseases of the circulatory system, by Remoteness Area, age group and sex, 2002–04	140
Figure 5.17: Average annual change in the ratio of observed to expected deaths due to all other diseases of the circulatory system, 1992–2003	140
Figure 6.1: Respiratory disease SMRs, by sex, 2002–04.....	150

Figure 6.2: Respiratory disease SMRs for persons aged 64 years and under, by sex, 2002–04.....	150
Figure 6.3: Average annual respiratory disease ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	151
Figure 6.4: Average annual change in the ratio of observed to expected deaths due to respiratory disease, 1992–2003	151
Figure 6.5: Pneumonia and influenza SMRs, by sex, 2002–04.....	158
Figure 6.6: Pneumonia and influenza SMRs for persons aged 64 years and under, by sex, 2002–04.....	158
Figure 6.7: Average annual pneumonia and influenza ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	159
Figure 6.8: Average annual change in the ratio of observed to expected deaths due to pneumonia and influenza, 1992–2003.....	159
Figure 6.9: Asthma SMRs, by sex, 2002–04.....	166
Figure 6.10: Asthma SMRs for persons aged 64 years and under, by sex, 2002–04.....	166
Figure 6.11: Average annual asthma ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	167
Figure 6.12: Average annual change in the ratio of observed to expected deaths due to asthma, 1992–2003.....	167
Figure 6.13: Chronic obstructive pulmonary disease SMRs, by sex, 2002–04.....	174
Figure 6.14: Chronic obstructive pulmonary disease SMRs for persons aged 64 years and under, by sex, 2002–04.....	174
Figure 6.15: Average annual chronic obstructive pulmonary disease ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	175
Figure 6.16: Average annual change in the ratio of observed to expected deaths due to chronic obstructive pulmonary disease, 1992–2003.....	175
Figure 6.17: All other diseases of the respiratory system SMRs, by sex, 2002–04.....	182
Figure 6.18: All other diseases of the respiratory system SMRs for persons aged 64 years and under, by sex, 2002–04.....	182
Figure 6.19: Average annual other diseases of the respiratory system ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	183
Figure 6.20: Average annual change in the ratio of observed to expected deaths due to other diseases of the respiratory system, 1992–2003.....	183
Figure 7.1: Each type of injury death as a percentage of all deaths and ‘excess’ deaths, by Remoteness Area, 2002–04.....	194
Figure 7.2: Injury SMRs, by sex, 2002–04.....	195
Figure 7.3: Injury SMRs for persons aged 64 years and under, by sex, 2002–04.....	195
Figure 7.4: Average annual injury ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	196
Figure 7.5: Average annual change in the ratio of observed to expected deaths due to injury, 1992–2003.....	196
Figure 7.6: Suicide SMRs, by sex, 2002–04.....	203
Figure 7.7: Suicide SMRs for persons aged 64 years and under, by sex, 2002–04.....	203
Figure 7.8: Average annual suicide ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	204

Figure 7.9: Average annual change in the ratio of observed to expected deaths due to suicide, 1992–2003	204
Figure 7.10: Interpersonal violence SMRs, by sex, 2002–04.....	211
Figure 7.11: Interpersonal violence SMRs for people aged 64 years and under, by sex, 2002–04.....	211
Figure 7.12: Average annual interpersonal violence ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	212
Figure 7.13: Average annual change in the ratio of observed to expected deaths due to interpersonal violence, 1992–2003	212
Figure 7.14: Falls SMRs, by sex, 2002–04.....	218
Figure 7.15: Falls SMRs for persons aged 64 years and under, by sex, 2002–04.....	219
Figure 7.16: Average annual falls ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	219
Figure 7.17: Motor vehicle traffic accident SMRs, by sex, 2002–04.....	226
Figure 7.18: Motor vehicle traffic accident SMRs for persons aged 64 years and under, by sex, 2002–04.....	226
Figure 7.19: Average annual motor vehicle traffic accident ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	227
Figure 7.20: Average annual change in the ratio of observed to expected deaths due to motor vehicle traffic accidents, 1992–2003	227
Figure 7.21: Other land transport accident SMRs, by sex, 2002–04.....	234
Figure 7.22: Other land transport accident SMRs for persons aged 64 years and under, by sex, 2002–04.....	234
Figure 7.23: Average annual other land transport accident ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	235
Figure 7.24: Average annual change in the ratio of observed to expected deaths due to other land transport accidents, 1997–2003.....	235
Figure 7.25: Other injuries and poisoning SMRs, by sex, 2002–04	242
Figure 7.26: Other injuries and poisoning SMRs for persons aged 64 years and under, by sex, 2002–04.....	242
Figure 7.27: Average annual all other injuries ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	243
Figure 7.28: Average annual change in the ratio of observed to expected deaths due to other injuries and poisoning, 1992–2003.....	243
Figure 8.1: Proportion of deaths and ‘excess’ deaths due to other causes of death, by Remoteness Area, 2002–04.....	253
Figure 8.2: SMRs for other causes of death, by sex, 2002–04.....	254
Figure 8.3: SMRs for other causes of death for persons aged 64 years and under, by sex, 2002–04.....	254
Figure 8.4: Average annual ‘excess’ deaths due to other causes, by Remoteness Area, age group and sex, 2002–04.....	255
Figure 8.5: Diabetes SMRs, by sex, 2002–04.....	262
Figure 8.6: Diabetes SMRs for persons aged 64 years and under, by sex, 2002–04.....	262
Figure 8.7: Average annual diabetes ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	263

Figure 8.8: Average annual change in the ratio of observed to expected deaths due to diabetes, 1992–2003	263
Figure 8.9: Renal failure SMRs, by sex, 2002–04	270
Figure 8.10: Renal failure SMRs for persons aged 64 years and under, by sex, 2002–04.....	270
Figure 8.11: Average annual renal failure ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	271
Figure 8.12: Average annual change in the ratio of observed to expected deaths due to renal failure, 1992–2003	271
Figure 8.13: Liver disease SMRs, by sex, 2002–04.....	278
Figure 8.14: Liver disease SMRs for persons aged 64 years and under, by sex, 2002–04	278
Figure 8.15: Average annual liver disease ‘excess’ deaths, by Remoteness Area, age group and sex, 2002–04.....	279
Figure 8.16: SMRs for all other causes of death, by sex, 2002–04.....	285
Figure 8.17: SMRs for all other causes of death for persons aged 64 years and under, by sex, 2002–04.....	286
Figure 8.18: Average annual ‘excess’ deaths for all other causes of death, by Remoteness Area, age group and sex, 2002–04.....	286
Figure 9.1: Population in each state living in coastal and inland areas (excludes Major Cities) 2001	296
Figure 9.2: Population in each remoteness category living in coastal and inland areas (excludes Major Cities) 2001.....	296
Figure 9.3: Age structure of the population in inland and coastal Inner Regional areas, 2001	297
Figure 9.4: Age structure of the population in inland and coastal Outer Regional areas, 2001	297
Figure 9.5: Age structure of the population in inland and coastal Remote areas, 2001.....	298
Figure 9.6: Age structure of the population in inland and coastal Very Remote areas, 2001	298
Figure 9.7: Age structure of the population in inland areas of Australia, by remoteness, 2001.....	299
Figure 9.8: Age structure of the population in coastal areas of Australia, by remoteness, 2001.....	299
Figure 9.9: Median, 90th and 10th percentiles of the SEIFA index of disadvantage, for inland and coastal Remoteness Areas, 2001.....	303
Figure 9.10: Percentage of SLAs from each area in the lowest, second, third and highest national quartiles of the SEIFA index of disadvantage, 2001.....	305
Figure 9.11: Ratio of observed to expected deaths, by remoteness and coastality, persons, 2001	308
Figure 9.12: Ratio of observed to expected deaths, by remoteness and coastality, males and females, 2001	308
Figure 9.13: Ratio of observed to expected deaths, by region, 0–64 year old persons, 2001	309
Figure 9.14: Ratio of observed to expected deaths, by region, 0–64 year old males and females, 2001	309
Figure 9.15: Ratio of observed to expected deaths, New South Wales by region, persons, 2001	318
Figure 9.16: Ratio of observed to expected deaths, New South Wales by region, 0–64 year old persons, 2001	318
Figure 9.17: Ratio of observed to expected deaths, Victoria by region, persons, 2001	319
Figure 9.18: Ratio of observed to expected deaths, Victoria by region, 0–64 year old persons, 2001	319
Figure 9.19: Ratio of observed to expected deaths, Queensland by region, persons, 2001	320

Figure 9.20: Ratio of observed to expected deaths, Queensland by region, 0–64 year old persons, 2001	320
Figure 9.21: Ratio of observed to expected deaths, Western Australia by region, persons, 2001	321
Figure 9.22: Ratio of observed to expected deaths, Western Australia by region, 0–64 year old persons, 2001	321
Figure 9.23: Ratio of observed to expected deaths, South Australia by region, persons, 2001.....	322
Figure 9.24: Ratio of observed to expected deaths, South Australia by region, 0–64 year old persons, 2001	322
Figure 9.25: Ratio of observed to expected deaths, Tasmania by region, persons, 2001	323
Figure 9.26: Ratio of observed to expected deaths, Tasmania by region, 0–64 year old persons, 2001	323
Figure 9.27: Ratio of observed to expected deaths, Northern Territory by region, persons, 2001	324
Figure 9.28: Ratio of observed to expected deaths, Northern Territory by region, 0–64 year old persons, 2001	324
