(a) The English proficiency (EP) status of clients is determined by their country of birth.

(b) Per 10,000 population shows how many children out of every 10,000 children in the general population accompanied a SAAP client. The rate is estimated by comparing the number of SAAP accompanied children in the applicable age or gender group with the estimated resident population in that age or gender group as at 30 June 2004 (preliminary estimates).

(c) Dates of support and accommodation are not recorded for accompanied children. For the purposes of calculating the length of support and the length of accommodation, it is assumed that children had the same lengths of support and accommodation as their parent or guardian.

(d) Median length of support and accommodation are calculated using closed accompanied child support periods.

(e) Median length of accommodation excludes accommodation that started and ended on the same day.

#### Notes

1. Number excluded due to errors and omissions for accompanied children (weighted): 6 gender; 24 age.
2. Number excluded due to errors and omissions for accompanied child support periods (weighted): 0.
3. Number excluded due to errors and omissions for closed accompanied child support periods (weighted): 0 length of support; 79 length of accommodation.
4. Children may accompany a different parent or guardian in each of their support periods, therefore the total number of accompanied children is not the sum of the number of accompanied children in each group.
5. Accompanied children figures have been weighted to adjust for agency non-participation and client non-consent.
6. Accompanying child support period figures have been weighted to adjust for agency non-participation and client non-consent (calibrated).

(a) The English proficiency (EP) status of clients is determined by their country of birth.

(b) Per 10,000 population shows how many children out of every 10,000 children in the general population became a SAAP client. The rate is estimated by comparing the number of SAAP unaccompanied children in the applicable age or gender group with the estimated resident population in that age or gender group as at 30 June 2004 (preliminary estimates).

(c) Median length of support and accommodation are calculated using closed support periods.

(d) Median length of accommodation excludes accommodation that started and ended on the same day.

**Notes**

1. Number excluded due to errors and omissions for unaccompanied children aged 0–17 years (weighted): 0 gender; 0 age. Note that there were 52 clients where age was not specified.
2. Number excluded due to errors and omissions for support periods for unaccompanied children aged 0–17 years (weighted): 0. Note that there were 59 support periods where age was not specified.
3. Number excluded due to errors and omissions for closed support periods for unaccompanied children aged 0–17 years (weighted): 0 length of support; 9 length of accommodation. Note that there were 50 closed support periods where age was not specified.
4. Unaccompanied children (client) figures have been weighted to adjust for agency non-participation and client non-consent.
5. Support period figures have been weighted to adjust for agency non-participation and client non-consent.

(a) 'Drug/alcohol/substance use' refers to clients who reported that they sought assistance because of drug, alcohol or substance use; or who needed, were provided with or were referred on for drug or alcohol support or intervention services; or who entered or exited support to a detoxification unit or rehabilitation centre.

(b) 'Mental health' refers to clients who reported that they were referred from a psychiatric unit; or who sought support because of a psychiatric illness; or who needed, were provided with or were referred on for psychological or psychiatric services.

(c) 'Domestic violence' refers to clients who approached agencies that were primarily targeted at supporting women and children escaping domestic violence; or who reported that they sought assistance because of domestic violence; or who needed, were provided with or were referred on for domestic violence counselling or support services.

(d) 'Other' refers to clients who did not meet the criteria of the above mentioned groupings (a) to (c).

(e) 'Total accompanied child support periods' refers to all accompanied child support periods, that is, it includes accompanied child support periods that had not ended by 30 June 2005 and closed accompanied child support periods where services were not requested but were provided or referred and where no information on service requirements or provision was recorded.

**Notes**

1. Number excluded due to errors and omissions (weighted): 2,302 closed accompanied child support periods where no information on service requirements or provision was recorded.
2. A client may present in one or more of the above categories (excluding 'Other'). Therefore, the sum by client characteristics will not add to the total.
3. In groups of service types, an accompanying child may require more than one type of service within the group. Percentages for broad groups relate to all needs and not to accompanied child support periods.
4. Figures have been weighted to adjust for agency non-participation.

(a) 'Total support periods' refers to all support periods for 12–17 year-olds, that is, it includes support periods for 12–17 year-olds that had not ended by 30 June 2005 and closed support periods for 12–17 year-olds where services were not requested but were provided or referred and where no information on service requirements or provision was recorded.

**Notes**

- Number excluded due to errors and omissions for 12–17 year-olds (weighted): 22 closed support periods where no information on service requirements or provision was recorded.
- Note that there were 50 closed support periods and 59 support periods where age was not specified (weighted).
- In groups of service types, a client may require more than one type of service within the group. Percentages for broad groups relate to all needs (distinct services needed) and not to support periods. For individual types of services, a need can be recorded only once within a support period, so percentages relate to support periods.
- To ensure confidentiality some cells in this table have been replaced with '(\*)—'. While these cases are not presented separately, they are included in the total. A '(+)' indicates cells that have been removed to ensure confidentiality but which make up the higher proportion.
- Figures have been weighted to adjust for agency non-participation and client non-consent.

(a) 'Total support periods' refers to all support periods for 12–17 year-olds, that is, it includes support periods for 12–17 year-olds that had not ended by 30 June 2005 and closed support periods for 12–17 year-olds where services were not requested but were provided or referred and where no information on service requirements or provision was recorded.

Notes

1. Number excluded due to errors and omissions for 12–17 year-olds (weighted): 22 closed support periods where no information on service requirements or provision was recorded.
2. Note that there were 50 closed support periods and 59 support periods where age was not specified (weighted).
3. Please refer to the Table 4 footnotes for the composition of the client characteristic categories.
4. In groups of service types, a client may require more than one type of service within the group. Percentages for broad groups relate to all needs and not to support periods.
5. Figures have been weighted to adjust for agency non-participation and client non-consent.
