

Appendix 2: List of figures

Hospitals at a glance

Figure 1: Separations per 1,000 population, public acute and private hospitals, Australia, 1995–96 to 2004–05	xi
Figure 2: Patient days per 1,000 population, public acute and private hospitals, Australia, 1995–96 to 2004–05.....	xi
Figure 3: Average length of stay, public acute and private hospitals, Australia, 1995–96 to 2004–05.....	xi
Figure 4: Average length of stay for overnight separations, public acute and private hospitals, Australia, 1995–96 to 2004–05	xii
Figure 5: Overnight separations per 1,000 population, Australia and selected OECD countries, 2002–03	xii
Figure 6: Separations per 1,000 population, by age group and sex, Australia, 2004–05	xii
Figure 7: Change in the number of separations (per cent), by age group and sex, Australia, 2000–01 to 2004–05	xiii
Figure 8: Average length of stay, by age group and sex, Australia, 2004–05.....	xiii
Figure 9: Separations per 1,000 population, by Indigenous status and age group, Australia, 2004–05.....	xiii
Figure 10: Separations per 1,000 population, by Remoteness Area of usual residence and hospital sector, Australia, 2004–05.....	xiv
Figure 11: Separations for medical, surgical and other AR-DRGs version 5.0/5.1, public hospitals, Australia, 2000–01 to 2004–05	xiv
Figure 12: Separations for medical, surgical and other AR-DRGs version 5.0/5.1, private hospitals, Australia, 2000–01 to 2004–05	xiv
Figure 13: Separations, by selected principal diagnosis, Australia, 2004–05	xv
Figure 14: Selected potentially preventable hospitalisations per 1,000 population, Australia, 2000–01 to 2004–05	xvi
Figure 15: Separations for selected procedures, Australia, 2004–05.....	xvi
Figure 16: Separations for coronary artery bypass graft and coronary angioplasty and the proportion in private hospitals, Australia, 2000–01 to 2004–05.....	xvii
Figure 17: Public hospital median waiting time, by specialty of surgeon, Australia, 2004–05.....	xvii
Figure 18: Public hospital emergency department occasions of service seen on time (per cent), by triage category and public hospital peer group, Australia, 2004–05.....	xviii
Figure 19: Emergency department occasions of service, by age group and sex, Australia, 2004–05.....	xviii
Figure 20: Average annual change in the number of available beds, by type of hospital, Australia, 1995–96 to 2004–05	xix

Figure 21: Average full-time equivalent staff, public hospitals, Australia, 1995–96 to 2004–05.....	xix
Figure 22: Recurrent expenditure, public hospitals, Australia, 2004–05	xx
Figure 23: Cost per casemix adjusted separation, Australia, 2000–01 to 2004–05	xx
Chapter 5: Non-admitted patient emergency department care	
Figure 5.1: Interrelationships of an <i>Emergency</i> triage category presentation with other data elements, public hospitals, Australia, 2004–05.....	101
Figure 5.2: Number of occasions of service, by hour of presentation and triage category, selected public hospitals, Australia, 2004–05	113
Figure 5.3: Proportion of emergency department occasions of service, by hour of presentation and triage category, selected public hospitals, Australia, 2004–05	113
Chapter 6: Waiting times for elective surgery	
Figure 6.1: Interrelationships of a specialty of surgeon (orthopaedic surgery) with other data elements, all hospitals, 2004–05.....	121
Chapter 8: Demographic profile for admitted patients	
Figure 8.1: Separations per 1,000 population, by age group, sex and reported Indigenous status, all hospitals, selected states and territories, 2004–05	175
Chapter 9: Principal diagnoses for admitted patients	
Figure 9.1: Interrelationships of a principal diagnosis (M17 <i>Gonarthrosis</i>) with other data elements, all hospitals, Australia, 2004–05	187
Chapter 10: Procedures for admitted patients	
Figure 10.1: Interrelationships of a procedure (Block 1518 <i>Arthroplasty of knee</i>) with other data elements, all hospitals, Australia, 2004–05	217
Figure 10.2: Proportion of separations with a procedure reported, by principal diagnosis and Indigenous status, all hospitals, selected states and territories, 2004–05	238
Chapter 11: External causes for admitted patients	
Figure 11.1: Interrelationships of an activity when injured (U50.0x <i>Football</i>) with other data elements, all hospitals, Australia, 2004–05	243
Chapter 12: Australian Refined Diagnosis Related Groups for admitted patients	
Figure 12.1: Interrelationships of an AR-DRG (I04Z <i>Knee replacement and reattachment</i>) with other data elements, all hospitals, Australia, 2004–05	260
Appendix 3: Technical notes	
Figure A3.1 Cost per casemix-adjusted separation including capital, public hospitals, 2003–04.....	304
