

List of tables supplementary to *Medical Labour Force, 2002*

1. All employed practitioners

- Table 1: Employed medical practitioners: type, states and territories, 1997 to 2002
- Table 2: All registered medical practitioners: employment status and sex, states and territories, 2002
- Table 3: Employed medical practitioners: main occupation and sex, Australia, 1997 to 2002
- Table 4: Employed medical practitioners: main occupation and sex, states and territories, 2002
- Table 5: Employed medical practitioners: main occupation, age and sex, Australia, 2002
- Table 6: Employed medical practitioners: main occupation, sex and average age, states and territories, 2002
- Table 7: Employed medical practitioners: main occupation, states and territories, 2002
- Table 8: Employed medical practitioners: main occupation, total hours worked, Australia, 2002
- Table 9: Employed medical practitioners: average hours spent in different roles by main occupation, Australia, 2002

2. Employed practitioners by region

- Table 10: Employed medical practitioners: selected characteristics, geographic region of main job, 2002
- Table 11: Employed medical practitioners: occupation, geographic region of main job, 2002
- Table 12: Employed medical practitioners: age, geographic region of main job, 2002
- Table 13: Employed medical practitioners: number and average age by sex and geographic region of main job, 2002
- Table 14: Employed medical practitioners: occupation, total hours worked per week and geographic region of main job, 2002
- Table 15: Employed medical practitioners: hours worked characteristics by occupation and geographic region of main job, 2002
- Table 16: Employed medical practitioners per 100,000 population: geographic region of main job, states and territories, 2002

3. Primary care Practitioners

- Table 17: Primary care practitioners: selected characteristics, states and territories, 2002
- Table 18: Primary care practitioners: selected characteristics, geographic region of main job, 2002
- Table 19: Primary care practitioners: total hours worked per week, sex and age, Australia, 2002

- Table 20: Primary care practitioners: number of practitioners in practice and sex, states and territories, 2002
- Table 21: Primary care practitioners: practice size, sex, age and average total hours worked, Australia, 2002
- Table 22: Primary care practitioners: locum/deputising service status and sex, state and territories, 2002
- Table 23: Primary care practitioners: sex and qualification, states and territories, 2002
- Table 24: Vocationally registered general practitioners: selected characteristics, states and territories, 2002
- Table 25: Vocationally registered general practitioners: selected characteristics, geographic region of main job, 2002
- Table 26: RACGP trainees: selected characteristics, states and territories, 2002
- Table 27: RACGP trainees: selected characteristics, geographic region of main job, 2002
- Table 28: Other medical practitioners: selected characteristics, states and territories, 2002
- Table 29: Other medical practitioners: selected characteristics, geographic region of main job, 2002

4. Hospital non-specialists

- Table 30: Hospital non-specialists: selected characteristics, states and territories, 2002
- Table 31: Hospital non-specialists: classification and age, states and territories, 2002
- Table 32: Hospital non-specialists: classification and total hours worked per week, states and territories, 2002
- Table 33: Hospital non-specialists: average total hours worked per week, age and classification, states and territories, 2002
- Table 34a: Hospital non-specialists: worksetting of main job and classification, states and territories, 2002
- Table 34b: Hospital non-specialists: sector of main job and classification, states and territories, 2002
- Table 35: Hospital non-specialists: age and classification, geographic region of main job, 2002
- Table 36: Hospital non-specialists: classification and age, average hours worked per week, geographic region of main job, 2002
- Table 37: Hospital non-specialists: total hours worked per week and classification, geographic region of main job, 2002
- Table 38: Hospital non-specialists: worksetting of main job and classification, geographic region of main job, 2002

5. Specialists and specialist-in-training

- Table 39: Specialists: selected characteristics, states and territories, 2002
- Table 40: Specialists: main specialty of practice, states and territories, 2002
- Table 41: Specialists: main specialty of practice and age, Australia, 2002

Table 42: Specialists: main specialty of practice and total hours worked per week, Australia 2002

Table 43: Specialists: main specialty of practice and total clinical hours worked per week, Australia, 2002

Table 44: Specialists: main, second and third specialties and sex, Australia, 2002

Table 45: Specialists: main specialty of qualification, states and territories, 2002

Table 46: All specialists, including those who are non-clinicians in their main occupation: specialty of practice and main occupation, Australia, 2002

Table 47: All specialists including those who are non-clinicians in their main occupation: main specialty of practice and total hours worked per week, 2002

Table 48: Specialists-in-training: selected characteristics, states and territories, 2002

Table 49: Specialists-in-training: specialty of training, states and territories, 2002

6. Full-time equivalent time series, 1997 to 2002

Table 50: Employed practitioners: region of main occupation, main occupation, number and FTE rate, 1997 to 2002

Table 51: Employed practitioners: state and territories, main occupation, number and FTE rate, 1997 to 2002
