2019 National Drug Strategy Household Survey

How do I complete the survey?

- The survey can be completed on paper, online or by telephone. Instructions for completing this hard copy form are provided on the next page.
- To complete online, please go to the link <https://drugs2019.roymorgan.com>, and enter the form number on the top-left of this page to log on. This form number is unique, so please do not share it with others.
- Alternatively, you can scan the QR code on the top-right of this page on your mobile or tablet.
- If you would like to complete by telephone please call 1800 000 293.

What is the National Drug Strategy Household Survey?

- The 2019 National Drug Strategy Household Survey collects information on tobacco, alcohol and other drug use, attitudes and beliefs.
- The survey is conducted about every three years and started in 1985.
- It is managed by the Australian Institute of Health and Welfare (AIHW) on behalf of the Australian Government Department of Health.

How confidential is the information I give you?

- All answers** you provide will be **treated confidentially**.
- The research is carried out in compliance with the *Privacy Act 1988* and the information is only used for research purposes.
- The survey is conducted under the *AIHW Act 1987*, which **prohibits the release of information about individuals collected in the survey**.

How will my answers be used?

- Your answers will be used by researchers to help in understanding what people think about tobacco, alcohol and other drugs and how widely these drugs are used.
- The answers you give will not be released to anyone (including the police).

STATUS:

Do I have to participate in the survey?

- Participation in this survey is entirely voluntary.
- If there are any questions you do not want to answer for any reason, please leave that question blank. It is important that you **complete this questionnaire by yourself** and be as honest and accurate as possible

Are you 14 – 17 years old?

- It is important that our younger respondents know that your **answers will not be shown to anyone**, this includes your parents.
- Please don't be afraid or embarrassed to give honest answers.
- Your answers will simply become part of a bigger pool of answers and no one will know who you are.

What do I do when I've completed the paper survey?

- Once you have completed the paper survey, seal it in the envelope provided and a Roy Morgan fieldworker will return to collect it.
- The fieldworker will then return the sealed envelope to the survey team for processing.
- Only the survey team will have access to your form and once the survey data is compiled your form will be destroyed.
- Your name and address will never be linked with any of the information you provide.

OFFICE USE ONLY INT RP

* 1 2 3 4 5 6 7 8 *

How is the information processed?

- All survey forms are coded so the researchers will not know who you are. Your answers will be grouped with the answers of over 21,000 other people before the researchers get to see them.
- Researchers will use all these answers to show things like 'most young people do not smoke' or 'three quarters of women drink alcohol'.
- When released in late-2020, the results of the survey will be available on the AIHW's website (www.aihw.gov.au).

How to complete this form:

- Please complete this form carefully using black ballpoint pen (not felt).

Most questions only require you to answer by marking the appropriate box or boxes with a cross like this:

Right

Wrong

Please do not mark any areas outside the box.

- Other questions will require a numeric answer and can be filled in like this:

2	4	or		6
---	---	----	--	---

Please do not cross the number 7. Please make sure to write only one number in each box. Always round up to whole numbers, unless otherwise indicated.

- Other questions will ask you to write your answer in the box provided. Please ensure that you print your answers like this:

Last year I travelled to Bali on a Holiday

- If you need to change an answer, completely fill in the wrong box and put a cross in the box you want to answer, like this:

Wrong box

Right box

- If you see an instruction like this (**Skip to**), you should follow the direction exactly. For example (Skip to Y1) means that you should miss all the questions after the one you have just answered, until you come to the question marked Y1. If you do not see the (Skip to), just answer the next question.
- Please answer each section and then follow the Skips as required.

FOR THIS SURVEY THE TERMS ILLICIT DRUG AND ILLEGAL DRUG ARE USED INTERCHANGEABLY TO DESCRIBE EACH OF THE FOLLOWING:

- Any drug which is illegal to possess or use;
- Any legal drug used in an illegal manner, for example:
 - A drug obtained on prescription but given or sold to another person to use;
 - Glue or petrol which is sold legally, but is used in a manner that is not intended, such as inhaling fumes; or
 - Stolen pharmaceuticals sold on the black market (e.g. Morphine).

Statistical Linkage Key

Please read this:

With your permission, we would like to collect some information from you so that your data from *this survey* and your data from *other government records* may be *linked* (i.e. combined) – but kept completely *confidential*. This data linking would only be for research purposes.

This linking would be done by using a ‘*Statistical Linkage Key*’, which is simply a group of *letters and numbers* that contains enough information to link records for statistical analysis, but cannot be used to identify anyone.

Answering this section is *optional and entirely voluntary*. It is also completely *confidential*. For more detail on confidentiality please see the information below.

To answer this section, please go to the next page.

Remember - Your confidentiality and privacy are protected

- Your actual name and other personal details will NOT be used at all in the linking of your survey data to other government records.
- No information from this survey will ever be added to any of your other government records.
- The linking of this data will only ever be used for statistical purposes. It will never be used for any legal, administrative or other purposes.
- Statistical reports will only contain combined information from many people and will not identify any individual.
- All your responses are treated confidentially. The research is carried out in compliance with the *Privacy Act 1988* and the information is used for research purposes only.
- The AIHW has specific legislation (Section 29 of the *AIHW Act 1987*) which prevents identifiable information about you from being released to anyone.

How to complete this:

To create the Statistical Linkage Key, we need a few specific letters from both your first name and your surname. Please print **ONLY** these letters in the boxes on the next page: the 2nd and 3rd letters of your first or given name, and the 2nd, 3rd and 5th letters of your surname (family name).

EXAMPLE ONLY:

e.g. if your name is DAVID JOHNSON you would write in:

Letters of given name:

	A	V				
--	---	---	--	--	--	--

Letters of family name:

	O	H		S		
--	---	---	--	---	--	--

If your name isn't long enough, use the number 2 for blank spaces.

e.g. if your name is JO LIU, you would write in:

Letters of given name:

	O	2				
--	---	---	--	--	--	--

Letters of family name:

	I	U		2		
--	---	---	--	---	--	--

Do not count hyphens, apostrophes or blank spaces.

e.g. if your name is JO-ANNE O'NEIL, you would write in:

Letters of given name:

	O	A				
--	---	---	--	--	--	--

Letters of family name:

	N	E		L		
--	---	---	--	---	--	--

What is data linkage?

Data linkage refers to the bringing together of information from more than one source that relates to the same person. This allows researchers to tell a bigger story than analysing data from just one source. For example, comparing the data on women who received the HPV vaccination with data on women who developed cervical cancer provided strong evidence that overall, the vaccination was effective in reducing cervical cancer.

Consent

By completing this information:

- I consent to other government agencies and departments releasing to researchers information relating to me, for linking purposes only.
- I consent to researchers linking my responses with records of government agencies and departments relating to me, such as Medicare records and Emergency presentations.
- I understand that at no time will any information be released that publicly identifies me.
