**Notes:**

1. This table presents projections of total visits supplied by allied dental practitioners. Allied dental practitioner visits are discounted when aggregated with dentist visits. For the purposes of reconciliation of supply with demand, only visits supplied independent of a visit to the dentist are counted toward total aggregated supply (Appendix B).
2. For the details of the assumptions and inputs for these projections see Section 3.4.

**Table D.5: Dentists' capacity to supply visits per annum by sex and age group, 2005 to 2020, assuming productivity continues to decline at 100% of the rate of decline observed in the period 1983–84 to 2003–04**
