

# List of tables

Table 3.1:	Recruitment and participation rates.....	20
Table 3.2:	Comparison of BEACH participants and all active recognised GPs in Australia (the sample frame).....	21
Table 3.3:	Activity level of participating and non-participating GPs.....	22
Table 3.4:	Age-sex distribution of patients at BEACH and MBS A1 services.....	23
Table 3.5:	The BEACH data set.....	24
Table 4.1:	Characteristics of participating GPs and their practices .....	26
Table 4.2:	Computer applications available/used at major practice address .....	28
Table 4.3:	Top 10 combinations of computer applications at major practice address.....	29
Table 5.1:	Summary of morbidity and management.....	31
Table 5.2:	Overview of MBS items recorded.....	32
Table 5.3:	Type of encounter .....	33
Table 5.4:	Summary of MBS/DVA items recorded (counting one item number per encounter only)	34
Table 5.5:	Medicare item number distribution across item number groups .....	35
Table 6.1:	Characteristics of the patients at encounters.....	37
Table 6.2:	Number of patient reasons for encounter .....	38
Table 6.3:	Distribution of patient reasons for encounter, by ICPC-2 chapter and most frequent individual reasons for encounter within chapter.....	39
Table 6.4:	Distribution of RFEs by ICPC-2 component .....	41
Table 6.5:	Most frequent patient reasons for encounter .....	42
Table 7.1:	Number of problems managed at an encounter.....	44
Table 7.2:	Distribution of problems managed, by ICPC-2 chapter and most frequent individual problems within chapter.....	45
Table 7.3:	Distribution of problems managed, by ICPC-2 component .....	48
Table 7.4:	Most frequently managed problems .....	49
Table 7.5:	Most frequently managed new problems .....	50
Table 7.6:	Most frequently managed chronic problems.....	52
Table 7.7:	Work-related problems, by type and most frequently managed individual problems.....	54
Table 8.1:	Summary of management .....	55
Table 8.2:	Encounters and problems for which management was recorded .....	56
Table 8.3:	Most common management combinations .....	57
Table 9.1:	Distribution of prescribed medications, by ATC levels 1, 3 and 5.....	61
Table 9.2:	Most frequently prescribed medications (CAPS generic level).....	64
Table 9.3:	Medications most frequently supplied by GPs .....	65
Table 9.4:	Most frequently advised over-the-counter medications .....	66
Table 10.1:	Summary of other treatments .....	68
Table 10.2:	Relationship between other treatments and pharmacological treatments .....	69

Table 10.3: Most frequent clinical treatments .....	70
Table 10.4: The 10 most common problems managed with a clinical treatment .....	71
Table 10.5: Most frequent procedural treatments .....	72
Table 10.6: The 10 most common problems managed with a procedural treatment .....	73
Table 11.1: Summary of referrals and admissions .....	74
Table 11.2: The most frequent referrals, by type .....	75
Table 11.3: The 10 problems most frequently referred to a medical specialist .....	76
Table 11.4: The 10 problems most frequently referred to allied health services.....	76
Table 11.5: The 10 problems most frequently referred to hospital .....	77
Table 12.1: Number of encounters and problems for which pathology or imaging ordered .....	78
Table 12.2: Distribution of pathology orders across MBS pathology groups and most frequent individual test orders within group.....	79
Table 12.3: The 10 problems for which pathology was most frequently ordered .....	81
Table 12.4: The most frequent imaging tests ordered, by MBS group .....	82
Table 12.5: The 10 problems for which an imaging test was most frequently ordered .....	83
Table 12.6: Most frequent other investigations ordered by GPs or performed in the practice.....	84
Table 13.1: Distribution of practice nurse item numbers recorded at encounter .....	86
Table 13.2: Summary of treatments given by practice nurse.....	87
Table 13.3: Most frequent treatments provided by practice nurses .....	88
Table 13.4: The most common problems managed with the involvement of practice nurse.....	89
Table 14.1: Patient body mass index (aged 18 years and over) .....	93
Table 14.2: Patient smoking status (aged 18 years and over) .....	97
Table 14.3: Patient alcohol consumption (aged 18 years and over) .....	100
Table 14.4: Risk factor profile of patients (aged 18 years and over) .....	102
Table 14.5: Number of risk factors, by patient sex .....	103
Table 15.1: SAND abstracts for 2007-08 and sample size for each .....	104
