Acknowledgments

The METeOR and Metadata Unit of the Australian Institute of Health and Welfare receives funding from the Australian Health Ministers' Advisory Council to produce and maintain the national standards for this *National health data dictionary* (NHDD). This includes producing biennial editions of the NHDD that are endorsed by the National Health Information Standards and Statistics Committee (NHISSC), and posting NHISSC-endorsed updates to the NHDD on METeOR every 6 months.

Contents

Acknowledgments	iii
Summary of updates to the <i>National health data dictionary</i> (NHDD) since version 14.....	1
National health data dictionary version 15.....	23
Data elements.....	23
Accrued mental health care days.....	24
Activity and participation life area.....	27
Activity when injured	30
Activity when injured (non-admitted patient)	31
Actual place of birth	33
Acute coronary syndrome procedure type	35
Acute coronary syndrome related clinical event type	38
Acute coronary syndrome related medical history.....	42
Acute coronary syndrome stratum	46
Additional diagnosis	49
Address line (person)	51
Address line (service provider organisation)	54
Address type (person).....	57
Address type (service provider organisation)	60
Address – country identifier (person).....	62
Administrative health region name	64
Administrative health region palliative care strategic plan indicator.....	65
Admission date	67
Admission time	70
Admitted patient election status.....	71
Age.....	74
Age range.....	76
Alcohol consumption frequency (self reported).....	78
Alcohol consumption in standard drinks per day (self reported)	80
Anaesthesia administered for operative delivery of the baby.....	82
Analgesia administered for labour.....	84
Angina status.....	86
Angiotensin converting enzyme (ACE) inhibitors therapy status.....	88
Anticipated patient election status	90
Apgar score at 1 minute	92
Apgar score at 5 minutes	93
Area of practice – dental	95

Data elements (continued)

Area of practice – midwifery.....	98
Area of practice – nursing.....	101
Area of practice – psychology	104
Area of usual residence.....	106
Aspirin therapy status.....	109
Assistance with activities.....	111
Australian State/Territory identifier (establishment)	114
Australian State/Territory identifier (jurisdiction).....	119
Australian state of birth	121
Australian state/territory identifier	124
Australian state/territory identifier (service provider organisation).....	126
Average available beds for hospital-in-the-home patients	128
Average available beds for overnight-stay patients	130
Average available beds for residential mental health patients	133
Average available beds for same-day patients	135
Average available neonatal cots (non-special-care)	138
Behaviour-related risk factor intervention	140
Behaviour-related risk factor intervention – purpose	142
Beta-blocker therapy status	144
Birth order.....	146
Birth plurality	148
Bleeding episode using TIMI criteria (status).....	150
Blindness (diabetes complication).....	152
Blood pressure – diastolic (measured).....	154
Blood pressure – systolic (measured)	157
Bodily location of main injury.....	160
Body function	163
Body mass index – adult (measured).....	166
Body mass index – adult (self-reported).....	169
Body mass index – child (measured)	172
Body mass index – child (self-reported)	175
Body mass index – classification.....	178
Body structure	183
Building/complex sub-unit number (person)	186
Building/complex sub-unit number (service provider organisation)	188
Building/complex sub-unit type – abbreviation (person)	189
Building/complex sub-unit type – abbreviation (service provider organisation)	191
Building/property name (person).....	193
Building/property name (service provider organisation)	195

Data elements (continued)

Bundle-branch block status	197
C-reactive protein level (measured)	198
CVD drug therapy – condition	199
Caesarean section indicator, last previous birth.....	201
Cancer initial treatment completion date.....	202
Cancer initial treatment starting date	203
Cancer staging – M stage code.....	204
Cancer staging – N stage code	206
Cancer staging – T stage code	208
Cancer staging – TNM stage grouping code.....	210
Cancer treatment type	212
Cancer treatment – target site (ICD-10-AM)	214
Cancer treatment – target site (ICDO-3)	215
Capital consumption expenses	216
Cardiovascular medication (current).....	218
Care type	220
Carer participation arrangements – carer consultants employed.....	227
Carer participation arrangements – carer satisfaction surveys	229
Carer participation arrangements – formal complaints mechanism	231
Carer participation arrangements – formal participation policy	233
Carer participation arrangements – regular discussion groups.....	235
Cataract – history	237
Category reassignment date.....	239
Census date.....	240
Centrelink customer reference number	241
Cerebral stroke due to vascular disease (history)	243
Change to body structure	244
Chest pain pattern category	247
Cholesterol – HDL (measured)	249
Cholesterol – LDL (calculated).....	251
Cholesterol – total (measured).....	253
Classification of health labour force job	255
Client type (alcohol and other drug treatment services).....	258
Clinical evidence of acute coronary syndrome related medical history	260
Clinical procedure timing (status).....	263
Clinical urgency	264
Clopidogrel therapy status	266
Co-location status of mental health service.....	268
Compensable status.....	270

Data elements (continued)

Complication of labour and delivery	272
Complications of pregnancy	273
Condition onset flag	274
Congenital malformations	277
Congenital malformations – BPA code.....	278
Consumer committee representation arrangements.....	279
Consumer participation arrangements – consumer consultants employed.....	281
Consumer participation arrangements – consumer satisfaction surveys.....	283
Consumer participation arrangements – formal complaints mechanism.....	285
Consumer participation arrangements – formal participation policy.....	287
Consumer participation arrangements – regular discussion groups	289
Contract establishment identifier	291
Contract procedure flag.....	292
Contract role	293
Contract type	294
Contracted care commencement date.....	296
Contracted care completion date.....	297
Coordinator of volunteers indicator	298
Coronary artery bypass graft location	300
Coronary artery disease – history of intervention or procedure.....	301
Coronary artery stenosis location.....	303
Country of birth	304
Country of employment in registered profession.....	308
Creatine kinase MB isoenzyme level (index code).....	310
Creatine kinase MB isoenzyme level (kCat per litre).....	312
Creatine kinase MB isoenzyme level (micrograms per litre).....	314
Creatine kinase MB isoenzyme level (nanograms per decilitre).....	316
Creatine kinase MB isoenzyme level (percentage).....	318
Creatine kinase MB isoenzyme level (units per litre)	320
Creatine kinase MB isoenzyme – upper limit of normal range (units per litre)	322
Creatine kinase MB isoenzyme – upper limit of normal range (index code).....	323
Creatine kinase MB isoenzyme – upper limit of normal range (kCat per litre).....	324
Creatine kinase MB isoenzyme – upper limit of normal range (micrograms per litre)	326
Creatine kinase MB isoenzyme – upper limit of normal range (nanograms per decilitre) ...	327
Creatine kinase MB isoenzyme – upper limit of normal range (percentage).....	329
Creatine kinase isoenzyme – upper limit of normal range (U/L)	331
Creatine kinase level (U/L).....	332
Creatinine serum level (measured)	334
Date C-reactive protein level measured	337

Data elements (continued)

Date accuracy indicator.....	338
Date creatine kinase MB isoenzyme measured	342
Date creatinine serum level measured.....	343
Date of acute coronary syndrome related clinical event	344
Date of birth.....	345
Date of cessation of treatment episode for alcohol and other drugs	353
Date of change to qualification status	355
Date of commencement of treatment episode for alcohol and other drugs	356
Date of completion of last previous pregnancy.....	358
Date of coronary artery bypass graft.....	359
Date of death	360
Date of diagnosis.....	362
Date of diagnosis of cancer.....	363
Date of diagnosis of first recurrence	365
Date of diagnostic cardiac catheterisation.....	366
Date of electrocardiogram	367
Date of first contact.....	368
Date of first delivery of service	370
Date of functional stress test	372
Date of implantable cardiac defibrillator procedure	373
Date of intra-aortic balloon pump procedure.....	374
Date of intravenous fibrinolytic therapy	375
Date of last contact.....	376
Date of most recent stroke	378
Date of non-invasive ventilation administration.....	379
Date of onset of acute coronary syndrome symptoms	380
Date of pacemaker insertion.....	382
Date of primary percutaneous coronary intervention.....	383
Date of procedure	384
Date of referral to rehabilitation	385
Date of rescue percutaneous coronary intervention.....	387
Date of revascularisation percutaneous coronary intervention	388
Date of surgical treatment for cancer	389
Date of triage	390
Date of ventricular ejection fraction test.....	392
Date patient presents.....	393
Date troponin measured	395
Day program attendances.....	396
Degree of spread of cancer	397

Data elements (continued)

Department of Veterans' Affairs file number	400
Department of Veterans' Affairs patient	403
Dependency in activities of daily living – bathing.....	405
Dependency in activities of daily living – bed mobility.....	407
Dependency in activities of daily living – bladder continence.....	409
Dependency in activities of daily living – bowel continence.....	411
Dependency in activities of daily living – day-time technical nursing care requirement	413
Dependency in activities of daily living – dressing	415
Dependency in activities of daily living – eating	417
Dependency in activities of daily living – evening technical nursing care requirement.....	419
Dependency in activities of daily living – extra surveillance	421
Dependency in activities of daily living – infrequent technical nursing care requirement ...	423
Dependency in activities of daily living – mobility	425
Dependency in activities of daily living – night-time technical nursing care requirement ...	427
Dependency in activities of daily living – toileting	429
Dependency in activities of daily living – transferring	431
Diabetes status.....	433
Diabetes therapy type	436
Diagnosis related group.....	438
Difficulty with activities.....	440
Division of General Practice number	443
Dyslipidaemia treatment indicator	444
ECG – Q waves indicator.....	446
Electrocardiogram – new Q waves indicator.....	448
Electrocardiogram – ST-segment-elevation in lead V4R.....	450
Electrocardiogram – lead V4R presence indicator	452
Electrocardiogram change location.....	453
Electrocardiogram change type	455
Electronic communication address (person).....	457
Electronic communication address (service provider organisation)	459
Electronic communication medium (person)	461
Electronic communication medium (service provider organisation).....	463
Electronic communication usage code (person).....	465
Emergency department arrival mode – transport.....	467
Emergency department date of commencement of service event	469
Emergency department departure date.....	472
Emergency department departure time	474
Emergency department episode end date.....	476
Emergency department episode end time.....	478

Data elements (continued)

Emergency department service episode end status.....	480
Emergency department time of commencement of service event.....	482
Emergency department waiting time to admission.....	485
Emergency department waiting time to service delivery.....	487
Employee expenses.....	488
Employment status (admitted patient).....	490
Employment status – health professional.....	492
Employment status – public psychiatric hospital admissions.....	494
Environmental factor.....	496
Episode of residential care end date.....	499
Episode of residential care end mode.....	501
Episode of residential care start date.....	503
Episode of residential care start mode.....	505
Erectile dysfunction.....	507
Establishment identifier.....	509
Establishment number.....	516
Establishment sector.....	519
Establishment type.....	523
Extended leave status in registered profession.....	528
Extended wait patient.....	530
Extent of participation.....	532
External cause.....	535
External cause (non-admitted patient).....	537
External cause – human intent.....	540
Family name.....	542
Fasting status.....	547
Feedback collection indicator.....	549
Feedback collection method.....	551
Fibrinolytic drug used.....	553
Fibrinolytic therapy status.....	554
Field of medicine – medical practitioner.....	556
First day of the last menstrual period.....	558
Floor/level number (person).....	559
Floor/level number (service provider organisation).....	561
Floor/level type (person).....	563
Floor/level type (service provider organisation).....	565
Foot deformity.....	567
Foot lesion (active).....	569
Foot ulcer (history).....	571

Data elements (continued)

Foot ulcer (current)	573
Formal community support access status	575
Full-time equivalent staff (mental health) – all staff	577
Full-time equivalent staff – administrative and clerical staff	580
Full-time equivalent staff – average	583
Full-time equivalent staff – carer consultants	585
Full-time equivalent staff – consultant psychiatrists and psychiatrists	587
Full-time equivalent staff – consumer consultants	589
Full-time equivalent staff – diagnostic and health professionals	591
Full-time equivalent staff – domestic and other staff	594
Full-time equivalent staff – enrolled nurses	597
Full-time equivalent staff – occupational therapists	600
Full-time equivalent staff – other diagnostic and health professionals	602
Full-time equivalent staff – other medical officers	604
Full-time equivalent staff – other personal care staff	606
Full-time equivalent staff – psychiatry registrars and trainees	609
Full-time equivalent staff – psychologists	611
Full-time equivalent staff – registered nurses	613
Full-time equivalent staff – salaried medical officers	616
Full-time equivalent staff – social workers	619
Full-time equivalent staff – student nurses	621
Full-time equivalent staff – trainee/pupil nurses	623
Functional stress ischaemic and perfusion outcome result	625
Functional stress test assessment of cardiac perfusion	627
Functional stress test element	628
Functional stress test intensity	629
Functional stress test performed indicator	631
Funding source for hospital patient	632
Geographical location of establishment	636
Geographical location of service delivery outlet	638
Gestational age	640
Given name sequence number	642
Given name(s)	644
Glycoprotein IIb/IIIa receptor antagonist (status)	650
Glycosylated Haemoglobin – upper limit of normal range (percentage)	652
Glycosylated haemoglobin level (measured)	654
Goal of care	656
Grants to non-government organisations – accommodation services	659
Grants to non-government organisations – advocacy services	662

Data elements (continued)

Grants to non-government organisations – community awareness/health promotion services.....	664
Grants to non-government organisations – counselling services	666
Grants to non-government organisations – independent living skills support services	668
Grants to non-government organisations – other and unspecified mental health services ...	670
Grants to non-government organisations – pre-vocational training services	673
Grants to non-government organisations – psychosocial support services	675
Grants to non-government organisations – recreation services	677
Grants to non-government organisations – respite services.....	679
Grants to non-government organisations – self-help support group services.....	681
Gross capital expenditure (accrual accounting) – buildings and building services.....	683
Gross capital expenditure (accrual accounting) – constructions.....	685
Gross capital expenditure (accrual accounting) – equipment	687
Gross capital expenditure (accrual accounting) – information technology	689
Gross capital expenditure (accrual accounting) – intangible assets	691
Gross capital expenditure (accrual accounting) – land	693
Gross capital expenditure (accrual accounting) – major medical equipment	695
Gross capital expenditure (accrual accounting) – other equipment.....	697
Gross capital expenditure (accrual accounting) – transport	699
Gross capital expenditure – computer equipment/installations	701
Gross capital expenditure – intangible assets	703
Gross capital expenditure – land and buildings.....	705
Gross capital expenditure – major medical equipment.....	707
Gross capital expenditure – other.....	709
Gross capital expenditure – plant and other equipment.....	711
Group sessions (public psychiatric, alcohol and drug hospital) – emergency and outpatient	713
Group sessions (public psychiatric, alcohol and drug hospital) – outreach and community	715
Group sessions – alcohol and other drug.....	717
Group sessions – allied health services.....	719
Group sessions – community health services	722
Group sessions – dental	725
Group sessions – dialysis.....	727
Group sessions – district nursing services	729
Group sessions – emergency services	732
Group sessions – endoscopy and related procedures	734
Group sessions – mental health	737
Group sessions – other medical/surgical/diagnostic	739
Group sessions – other outreach services.....	741

Data elements (continued)

Group sessions – pathology	744
Group sessions – pharmacy.....	746
Group sessions – radiology and organ imaging.....	748
Health industry relevant organisation type.....	750
Health professionals attended (diabetes mellitus).....	761
Heart rate	763
Heart rhythm type.....	764
Height (measured).....	766
Height (self-reported).....	770
Hip circumference (measured)	773
Histopathological grade.....	776
Hospital insurance status.....	778
Hours on-call (not worked) by medical practitioner	780
Hours worked in health profession – clinical	781
Hours worked in health profession – non-clinical	783
Hours worked in health profession – private sector.....	785
Hours worked in health profession – public sector	787
Hours worked in health profession – total.....	789
House/property number (person)	792
House/property number (service provider organisation).....	794
Household annual gross income range	796
Household annual gross income range (\$10,000 range).....	798
Human epidermal growth factor receptor-2 test result.....	800
Human epidermal growth factor receptor-2 test type.....	803
Hypertension – treatment.....	805
Hypoglycaemia – severe.....	807
Impairment of body function.....	809
Impairment of body structure.....	812
Indicator procedure.....	815
Indigenous status.....	819
Individual sessions (public psychiatric, alcohol and drug hospital) – emergency and outpatient	827
Individual sessions (public psychiatric, alcohol and drug hospital) – outreach and community	829
Individual sessions – alcohol and drug.....	831
Individual sessions – allied health services.....	834
Individual sessions – community health services	836
Individual sessions – dental	839
Individual sessions – dialysis.....	842

Data elements (continued)

Individual sessions – district nursing services	845
Individual sessions – emergency services	848
Individual sessions – endoscopy and related procedures	851
Individual sessions – mental health	854
Individual sessions – other medical/surgical/diagnostic	857
Individual sessions – other outreach services.....	860
Individual sessions – pathology	863
Individual sessions – pharmacy.....	866
Individual sessions – radiology and organ imaging.....	869
Individual/group session indicator	871
Infant weight, neonate, stillborn.....	872
Influence of environmental factor	874
Informal carer existence indicator	878
Initial visit indicator – diabetes mellitus.....	881
Injecting drug use status.....	883
Instrumented bleeding location.....	885
Intended length of hospital stay	887
Intended place of birth.....	889
Intended years in health profession.....	891
Intention of treatment for cancer	893
Inter-hospital contracted patient	895
Interpreter services required	897
Jobseeker status in registered profession	898
Killip classification code	900
Labour force status	902
Laterality of primary cancer	905
Leave days from residential care.....	907
Length of employment in health profession.....	909
Length of non-admitted patient emergency department service episode.....	911
Length of stay	913
Length of stay (including leave days).....	914
Length of stay (including leave days) (antenatal).....	916
Length of stay (including leave days) (postnatal).....	918
Level of palliative care service	920
Lifestyle counselling type.....	922
Lipid-lowering therapy status	924
Listing date for care.....	926
Living arrangement.....	928
Location of impairment.....	930

Data elements (continued)

Lot/section number (person).....	933
Lot/section number (service provider organisation)	935
Lower limb amputation due to vascular disease	937
Lymphovascular invasion	939
Main language other than English spoken at home	941
Main occupation of person.....	944
Main treatment type for alcohol and other drugs	946
Major diagnostic category	949
Marital status.....	951
Maternal medical conditions.....	955
Maximum stenosis coronary artery.....	956
Medicare card number	957
Medicare eligibility status.....	959
Mental health legal status.....	962
Mental health service contact date	967
Mental health service contact duration.....	969
Mental health service contact – patient/client participation indicator	971
Mental health service contact – session type.....	973
Mental health services grants to non-government organisations by non-health departments	975
Method of birth	977
Method of use for principal drug of concern.....	979
Microalbumin level – albumin/creatinine ratio (measured).....	981
Microalbumin level – micrograms per minute (measured)	983
Microalbumin level – milligrams per 24 hour (measured)	985
Microalbumin level – milligrams per litre (measured).....	987
Microalbumin level – upper limit of normal range (albumin/creatinine ratio)	989
Microalbumin level – upper limit of normal range (micrograms per minute)	991
Microalbumin level – upper limit of normal range (milligrams per 24 hour)	993
Microalbumin level – upper limit of normal range (milligrams per litre).....	995
Minutes of operating theatre time	997
Mode of admission	998
Mode of separation.....	1000
Month and year of birth.....	1004
Morphology of cancer	1006
Most common service delivery setting	1008
Most valid basis of diagnosis of cancer	1010
Mother’s original family name.....	1013
Multi-disciplinary team status.....	1014

Data elements (continued)

Myocardial infarction (history).....	1015
Name context flag.....	1017
Name suffix	1019
Name suffix sequence number	1021
Name title.....	1023
Name title sequence number.....	1025
Name type.....	1027
Name type (service provider organisation)	1029
Narrative description of injury event.....	1031
National standards for mental health services review status.....	1033
Nature of main injury (non-admitted patient)	1036
Neo-adjuvant therapy	1039
Neonatal morbidity	1041
Net capital expenditure (accrual accounting) – buildings and building services.....	1042
Net capital expenditure (accrual accounting) – constructions	1044
Net capital expenditure (accrual accounting) – equipment.....	1046
Net capital expenditure (accrual accounting) – information technology	1048
Net capital expenditure (accrual accounting) – intangible assets	1050
Net capital expenditure (accrual accounting) – land	1052
Net capital expenditure (accrual accounting) – major medical equipment.....	1054
Net capital expenditure (accrual accounting) – other equipment.....	1056
Net capital expenditure (accrual accounting) – transport.....	1058
New/repeat status.....	1060
Non-Australian state/province (person).....	1061
Non-Australian state/province (service provider organisation).....	1063
Non-instrumented bleeding location.....	1064
Number of caesarean sections.....	1066
Number of contacts – psychiatric outpatient clinic/day program	1067
Number of coronary artery lesions attempted	1069
Number of coronary artery lesions successfully dilated.....	1070
Number of coronary artery stents	1071
Number of days in special/neonatal intensive care	1072
Number of days of hospital-in-the-home care.....	1074
Number of episodes of angina in last 24 hours	1077
Number of episodes of residential care	1078
Number of group sessions.....	1080
Number of leave periods	1082
Number of occasions of service	1083
Number of positive sentinel lymph nodes.....	1085

Data elements (continued)

Number of qualified days for newborns	1086
Number of regional lymph nodes examined	1088
Number of sentinel lymph nodes examined	1090
Number of service contact dates	1091
Number of service contacts within a treatment episode for alcohol and other drug	1092
Number of service events (non-admitted patient)	1094
Number of tobacco cigarettes smoked per day after 20 weeks of pregnancy	1096
Number of tobacco cigarettes smoked per day first 20 weeks of pregnancy	1098
Nursing diagnosis – other	1100
Nursing diagnosis – principal	1102
Nursing interventions	1104
Occasions of service (residential aged care services) – outreach/community	1108
Occasions of service (residential aged care services) – outpatient	1109
Oestrogen receptor assay result	1110
Onset of labour	1112
Ophthalmological assessment – outcome (left retina)	1114
Ophthalmological assessment – outcome (right retina)	1116
Ophthalmoscopy performed indicator	1118
Organisation end date	1120
Organisation expenses, total Australian currency	1121
Organisation name	1124
Organisation revenues	1126
Organisation start date	1129
Other drug of concern	1130
Other treatment type for alcohol and other drugs	1133
Other/Underlying cause of acute coronary syndrome	1136
Outcome of initial treatment	1138
Outcome of last previous pregnancy	1140
Outpatient clinic type	1141
Overdue patient	1148
Palliative care agency service delivery setting	1150
Parity	1152
Partner organisation type	1153
Patient days	1155
Patient listing status	1157
Patient present status (non-admitted patient)	1159
Patients in residence at year end	1160
Percutaneous coronary intervention procedure type	1162
Perineal status	1164

Data elements (continued)

Period of residence in Australia.....	1166
Peripheral neuropathy (status)	1168
Peripheral vascular disease in feet (status)	1171
Person identifier	1173
Person identifier type – health care (person)	1179
Pharmacotherapy type prescribed for acute coronary syndrome in hospital.....	1181
Pharmacotherapy type taken for acute coronary syndrome post discharge.....	1183
Physical activity sufficiency status	1185
Place of occurrence of external cause of injury (ICD-10-AM)	1188
Place of occurrence of external cause of injury (non-admitted patient).....	1190
Postal delivery point identifier (person).....	1192
Postal delivery point identifier (service provider organisation).....	1194
Postal delivery service number.....	1196
Postal delivery service type – abbreviation.....	1198
Postcode – Australian (person)	1200
Postcode – Australian (service provider organisation)	1203
Postcode – Australian (workplace).....	1205
Postcode – international (person)	1207
Postcode – international (service provider organisation)	1208
Postpartum complication.....	1209
Preferred language	1211
Pregnancy duration at the first antenatal care visit	1213
Pregnancy – current status	1215
Premature cardiovascular disease family history (status)	1216
Presentation at birth	1218
Previous pregnancies – ectopic.....	1220
Previous pregnancies – induced abortion	1222
Previous pregnancies – live birth	1224
Previous pregnancies – spontaneous abortion	1226
Previous pregnancies – stillbirth	1228
Previous specialised treatment	1230
Primary site of cancer (ICD-10-AM code)	1233
Primary site of cancer (ICDO-3 code)	1235
Principal diagnosis	1237
Principal drug of concern	1239
Principal role – health profession	1241
Procedure	1244
Proficiency in spoken English.....	1246
Progesterone receptor assay results	1249

Data elements (continued)

Proteinuria status.....	1251
Provider occupation category (self-identified) (ANZSCO 1st edition).....	1253
Provider occupation end date.....	1256
Provider occupation start date.....	1257
Purchase of goods and services	1258
Quality accreditation/certification standard – Australian Council on Healthcare Standards EQUIP	1261
Quality accreditation/certification standard – Australian Quality Council	1262
Quality accreditation/certification standard – ISO 9000 quality family.....	1263
Quality accreditation/certification standard – Quality Improvement Council.....	1264
Radiotherapy treatment type	1265
Reason for cessation of treatment episode for alcohol and other drugs	1267
Reason for non prescription of pharmacotherapy	1271
Reason for readmission – acute coronary syndrome.....	1273
Reason for removal from elective surgery waiting list.....	1277
Received radiation dose.....	1279
Recurrent expenditure (indirect health care) – public health and monitoring services	1281
Recurrent expenditure (indirect health care) – central administrations	1283
Recurrent expenditure (indirect health care) – central and statewide support services	1285
Recurrent expenditure (indirect health care) – other.....	1287
Recurrent expenditure (indirect health care) – patient transport services	1289
Recurrent expenditure (mental health) – non-salary operating costs	1291
Recurrent expenditure (mental health) – salaries and wages.....	1294
Recurrent expenditure (salaries and wages) – administrative and clerical staff	1296
Recurrent expenditure (salaries and wages) – carer consultants	1298
Recurrent expenditure (salaries and wages) – consultant psychiatrists and psychiatrists ..	1300
Recurrent expenditure (salaries and wages) – consumer consultants	1302
Recurrent expenditure (salaries and wages) – diagnostic and health professionals.....	1304
Recurrent expenditure (salaries and wages) – domestic and other staff	1306
Recurrent expenditure (salaries and wages) – enrolled nurses.....	1308
Recurrent expenditure (salaries and wages) – occupational therapists.....	1310
Recurrent expenditure (salaries and wages) – other diagnostic and health professionals ..	1312
Recurrent expenditure (salaries and wages) – other medical officers.....	1314
Recurrent expenditure (salaries and wages) – other personal care staff.....	1316
Recurrent expenditure (salaries and wages) – psychiatry registrars and trainees	1318
Recurrent expenditure (salaries and wages) – psychologists.....	1320
Recurrent expenditure (salaries and wages) – registered nurses.....	1322
Recurrent expenditure (salaries and wages) – salaried medical officers	1324
Recurrent expenditure (salaries and wages) – social workers	1326

Data elements (continued)

Recurrent expenditure (salaries and wages) – student nurses.....	1328
Recurrent expenditure (salaries and wages) – total.....	1330
Recurrent expenditure (salaries and wages) – trainee/ pupil nurses	1332
Recurrent expenditure – Department of Veterans’ Affairs funded	1334
Recurrent expenditure – National Mental Health Strategy funded	1336
Recurrent expenditure – State or Territory health authority funded	1338
Recurrent expenditure – administrative expenses.....	1340
Recurrent expenditure – depreciation	1343
Recurrent expenditure – domestic services.....	1346
Recurrent expenditure – drug supplies	1349
Recurrent expenditure – food supplies.....	1352
Recurrent expenditure – interest payments	1355
Recurrent expenditure – medical and surgical supplies	1358
Recurrent expenditure – non-salary operating costs (excluding depreciation).....	1361
Recurrent expenditure – other Commonwealth Government funded.....	1364
Recurrent expenditure – other State or Territory funded	1366
Recurrent expenditure – other patient revenue funded.....	1368
Recurrent expenditure – other recurrent expenditure.....	1370
Recurrent expenditure – other revenue funded	1372
Recurrent expenditure – patient transport.....	1374
Recurrent expenditure – payments to visiting medical officers.....	1376
Recurrent expenditure – recoveries funded.....	1379
Recurrent expenditure – repairs and maintenance	1381
Recurrent expenditure – superannuation employer contributions	1384
Recurrent expenditure – total.....	1387
Referral destination to further care (from specialised mental health residential care)	1390
Referral destination to further care (psychiatric patients)	1392
Referred to ophthalmologist (diabetes mellitus)	1394
Region code	1396
Region of first recurrence.....	1399
Regional lymph nodes positive	1401
Removal date.....	1403
Renal disease therapy.....	1405
Renal disease – end-stage (diabetes complication)	1407
Residential stay start date.....	1409
Residual expenditure (mental health service) – Mental Health Act Regulation or related legislation	1411
Residual expenditure (mental health service) – academic positions.....	1413
Residual expenditure (mental health service) – education and training	1415

Data elements (continued)

Residual expenditure (mental health service) – insurance	1417
Residual expenditure (mental health service) – mental health promotion.....	1419
Residual expenditure (mental health service) – mental health research.....	1421
Residual expenditure (mental health service) – other indirect expenditure	1423
Residual expenditure (mental health service) – patient transport services	1425
Residual expenditure (mental health service) – program administration	1427
Residual expenditure (mental health service) – property leasing costs	1429
Residual expenditure (mental health service) – service development	1431
Residual expenditure (mental health service) – superannuation.....	1433
Residual expenditure (mental health service) – support services.....	1435
Residual expenditure (mental health service) – workers compensation	1437
Resuscitation of baby – method	1439
Retirement status in registered profession.....	1441
Revenue – other	1443
Revenue – patient	1444
Revenue – recoveries	1445
Satisfaction with participation	1447
Scheduled admission date	1450
Separation date.....	1451
Separation time	1455
Separations.....	1456
Service contact date	1458
Service mode (non-admitted patient)	1460
Service type (non-admitted patient).....	1462
Sex	1465
Source of public and private revenue	1473
Source of referral to alcohol and other drug treatment service.....	1479
Source of referral to public psychiatric hospital.....	1482
Specialised mental health service program type.....	1484
Specialised mental health service setting	1487
Specialised mental health service target population	1489
Specialised mental health service – hours staffed	1492
Specialised mental health service – supported public housing places.....	1494
Specialised service indicators – acquired immune deficiency syndrome unit.....	1496
Specialised service indicators – acute renal dialysis unit.....	1498
Specialised service indicators – acute spinal cord injury unit	1500
Specialised service indicators – alcohol and drug unit.....	1502
Specialised service indicators – bone marrow transplantation unit.....	1504
Specialised service indicators – burns unit (level III)	1506

Data elements (continued)

Specialised service indicators – cardiac surgery unit	1508
Specialised service indicators – clinical genetics unit	1510
Specialised service indicators – comprehensive epilepsy centre	1512
Specialised service indicators – coronary care unit	1514
Specialised service indicators – diabetes unit	1516
Specialised service indicators – domiciliary care service	1518
Specialised service indicators – geriatric assessment unit	1520
Specialised service indicators – heart, lung transplantation unit	1522
Specialised service indicators – hospice care unit	1524
Specialised service indicators – in-vitro fertilisation unit	1526
Specialised service indicators – infectious diseases unit	1528
Specialised service indicators – intensive care unit (level III)	1530
Specialised service indicators – liver transplantation unit	1532
Specialised service indicators – maintenance renal dialysis centre	1534
Specialised service indicators – major plastic/reconstructive surgery unit	1536
Specialised service indicators – neonatal intensive care unit (level III)	1538
Specialised service indicators – neurosurgical unit	1540
Specialised service indicators – nursing home care unit	1542
Specialised service indicators – obstetric/maternity	1544
Specialised service indicators – oncology unit, cancer treatment	1546
Specialised service indicators – pancreas transplantation unit	1548
Specialised service indicators – psychiatric unit/ward	1550
Specialised service indicators – rehabilitation unit	1552
Specialised service indicators – renal transplantation unit	1554
Specialised service indicators – sleep centre	1556
Specialised service indicators – specialist paediatric	1558
Specialised service indicators – transplantation unit	1560
Specialist private sector rehabilitation care indicator	1561
Staging basis of cancer	1563
Staging scheme source	1565
Staging scheme source edition number	1567
Standards assessment indicator	1569
Standards assessment level	1571
Standards assessment method	1573
State/Territory of birth	1575
Status of the baby	1577
Street name (person)	1579
Street name (service provider organisation)	1581
Street suffix code (person)	1583

Data elements (continued)

Street suffix code (service provider organisation).....	1585
Street type code (person)	1587
Street type code (service provider organisation).....	1589
Suburb/town/locality name (person)	1591
Suburb/town/locality name (service provider organisation)	1593
Suburb/town/locality name (workplace).....	1595
Surgical specialty	1597
Surgical treatment procedure for cancer	1599
Systemic therapy agent name	1601
Teaching status.....	1603
Telephone number.....	1605
Telephone number type.....	1607
Time C-reactive protein level measured.....	1609
Time creatine kinase MB isoenzyme measured.....	1610
Time of acute coronary syndrome related clinical event	1611
Time of diagnostic cardiac catheterisation	1612
Time of electrocardiogram.....	1613
Time of implantable cardiac defibrillator procedure.....	1614
Time of intra-aortic balloon pump procedure	1615
Time of intravenous fibrinolytic therapy	1616
Time of non-invasive ventilation administration.....	1617
Time of onset of acute coronary syndrome symptoms	1618
Time of pacemaker insertion.....	1620
Time of primary percutaneous coronary intervention	1621
Time of rescue percutaneous coronary intervention	1622
Time of revascularisation percutaneous coronary intervention	1623
Time of triage	1625
Time of ventricular ejection fraction test.....	1627
Time patient presents	1628
Time troponin measured	1630
Timing of ACE-inhibitor prescription	1631
Timing of angiotensin II receptor blocker prescription.....	1633
Timing of antithrombin therapy prescription.....	1635
Timing of aspirin prescription	1637
Timing of beta-blocker prescription.....	1639
Timing of clopidogrel prescription	1641
Timing of glycoprotein IIb/IIIa inhibitor prescription.....	1643
Timing of statin prescription.....	1645
Tobacco smoking indicator, after 20 weeks of pregnancy	1647

Data elements (continued)

Tobacco smoking indicator, first 20 weeks of pregnancy	1649
Tobacco smoking status	1651
Tobacco smoking status (diabetes mellitus).....	1654
Tobacco smoking – consumption/quantity (cigarettes)	1656
Tobacco smoking – duration (daily smoking)	1658
Tobacco smoking – ever daily use.....	1660
Tobacco smoking – frequency.....	1662
Tobacco smoking – product	1664
Tobacco smoking – quit age (daily smoking)	1666
Tobacco smoking – start age (daily smoking).....	1668
Tobacco smoking – time since quitting (daily smoking).....	1670
Total blood units transfused.....	1672
Total contract patient days	1673
Total leave days.....	1674
Total psychiatric care days	1677
Treatment delivery setting for alcohol and other drugs	1681
Triage category.....	1683
Triglyceride level (measured)	1685
Troponin assay type	1687
Troponin assay – upper limit of normal range (micrograms per litre)	1688
Troponin level (measured)	1689
Tumour size at diagnosis (solid tumours).....	1691
Tumour thickness at diagnosis (melanoma)	1694
Type of accommodation	1695
Type of augmentation of labour	1698
Type of health or health related function.....	1700
Type of labour induction	1712
Type of usual accommodation.....	1713
Type of visit to emergency department.....	1715
Underlying cause of death.....	1717
Urgency of admission	1719
Vascular history	1723
Vascular procedures.....	1725
Ventricular ejection fraction measurement indicator	1727
Ventricular ejection fraction test result (percentage)	1728
Ventricular ejection fraction test result (code)	1729
Ventricular ejection fraction test type	1731
Visa type – health professional	1732
Visual acuity (left eye).....	1734

Data elements (continued)

Visual acuity (right eye).....	1736
Waist circumference (measured)	1738
Waist circumference risk indicator – adults.....	1742
Waist-to-hip ratio.....	1744
Waiting list category.....	1747
Waiting time at a census date.....	1752
Waiting time at removal from elective surgery waiting list	1755
Weight (self-reported).....	1758
Weight in grams (measured).....	1761
Weight in kilograms (measured)	1763
Work sector – health professional	1767
Work setting – chiropractor.....	1770
Work setting – dental	1773
Work setting – medical practitioner.....	1776
Work setting – midwife.....	1779
Work setting – nurse	1781
Work setting – optometrist.....	1785
Work setting – osteopath.....	1788
Work setting – pharmacist.....	1791
Work setting – physiotherapist.....	1794
Work setting – podiatrist	1797
Work setting – psychologist	1800
Work setting – registered health professional	1803
Working partnership indicator	1806
Year insulin started.....	1808
Year of arrival in Australia	1809
Year of diagnosis of diabetes mellitus	1811

Indicator procedure.....	2294
Indigenous status.....	2295
Informal carer existence indicator	2296
Initial visit since diagnosis indicator.....	2297
Injecting drug use status.....	2298
Insulin start date	2299
Intended length of hospital stay	2300
Intended years in profession.....	2301
Intention of treatment	2302
Inter-hospital contracted patient status.....	2303
International postcode	2304
Interpreter service required status	2305
Intra-aortic balloon pump procedure date.....	2306
Intra-aortic balloon pump procedure time.....	2307
Intravenous fibrinolytic therapy date	2308
Intravenous fibrinolytic therapy time.....	2309
Ischaemic and perfusion outcome result.....	2310
Jobseeker status in registered profession	2311
Killip classification.....	2312
Labour augmentation type	2313
Labour force status	2314
Labour induction type.....	2315
Labour onset type	2316
Last contact date.....	2317
Laterality of primary cancer	2318
Length of employment in profession.....	2319
Length of stay	2320
Level of difficulty with activities in a life area.....	2321
Level of satisfaction with participation in a life area	2322
Level of service delivery	2323
Lifestyle counselling type.....	2324
Lipid-lowering therapy status	2325
Listing date for care.....	2326

Properties (continued)

Living arrangement	2327
Location of impairment of body structure	2328
Lot/section identifier	2329
Low-density lipoprotein cholesterol level.....	2330
Lower limb amputation due to vascular disease	2331
Lymphovascular invasion	2332
Main activity type.....	2333
Main language other than English spoken at home	2334
Major diagnostic category	2335
Marital status.....	2336
Maternal medical condition	2337
Maximum stenosis coronary artery.....	2338
Melanoma thickness.....	2339
Mental health legal status.....	2340
Mental health service duration	2341
Mental health services grants to non-government organisations from non-health departments	2342
Method of drug use	2343
Microalbumin level.....	2344
Morphology of cancer	2345
Most common service delivery setting	2346
Most recent stroke date	2347
Most valid basis of diagnosis of a cancer	2348
Mother's original family name.....	2349
Multi-disciplinary team status.....	2350
Myocardial infarction.....	2351
Name conditional use flag.....	2352
Name suffix	2353
Name suffix sequence number	2354
Name title.....	2355
Name title sequence number.....	2356
Name type.....	2357
Nature of impairment of body structure	2358
Nature of main injury.....	2359
Need for assistance with activities in a life area	2360
Neoadjuvant therapy indicator.....	2361
Neonatal admitted care (Non-special-care)	2362
Neonatal morbidity	2363
Net capital expenditure.....	2364

Properties (continued)

New/repeat service event status	2365
Non-Australian state/province	2366
Non-invasive ventilation administration date.....	2367
Non-invasive ventilation administration time	2368
Non-surgical cancer treatment completion date	2369
Non-surgical cancer treatment start date	2370
Number of cigarettes smoked	2371
Number of cigarettes smoked after 20 weeks of pregnancy	2372
Number of cigarettes smoked first 20 weeks of pregnancy	2373
Number of day centre attendances	2374
Number of days of hospital-in-the-home care.....	2375
Number of episodes of residential care	2376
Number of group session occasions of service for non-admitted patients.....	2377
Number of group sessions.....	2378
Number of hours staffed.....	2379
Number of individual session occasions of service for non-admitted patients	2380
Number of leave days	2381
Number of leave periods	2382
Number of non-admitted patient service events.....	2383
Number of occasions of service	2384
Number of patient days	2385
Number of positive regional lymph nodes	2386
Number of positive sentinel lymph nodes.....	2387
Number of previous caesarean sections	2388
Number of previous pregnancies	2389
Number of psychiatric care days.....	2390
Number of psychiatric outpatient clinic/day program attendances.....	2391
Number of qualified days.....	2392
Number of regional lymph nodes examined.....	2393
Number of sentinel lymph nodes examined.....	2394
Number of separations.....	2395
Number of service contact dates.....	2396
Number of service contacts	2397
Number of supported public housing places	2398
Nursing diagnosis.....	2399
Nursing intervention.....	2400
Occupation.....	2401
Occupation end date	2402
Occupation start date	2403

Properties (continued)

Oestrogen receptor assay result.....	2404
Operating theatre time	2405
Ophthalmological assessment outcome	2406
Ophthalmoscopy performed indicator	2407
Organisation end date.....	2408
Organisation identifier.....	2409
Organisation name	2410

Summary of updates to the *National health data dictionary (NHDD)* since version 14

This section summarises the updates made to the *National health data dictionary* (NHDD) version 15, published in August 2010. This reflects changes to national health data standards between July 2008 and June 2010. During this time, 13 data set specifications, 33 data clusters, 122 data elements, 1 classification scheme and 1 glossary item have been added to the NHDD. Other changes include the revision of 20 national minimum data sets, 8 data set specifications, 6 data clusters, 84 data elements, 7 classification schemes and 1 glossary item. As a result of these revisions, 86 data elements, 20 national minimum data sets, 8 data set specifications, 6 data element clusters, 7 classifications and 1 glossary item have been superseded. No national standards have been retired since version 14 of the NHDD was published.

These new standards have been agreed and endorsed by the members of the National Health Information Standards and Statistics Committee (NHISSC) and the National Electronic Health Information Principal Committee (NEHIPC).

Table 1: Summary table of updates to the NHDD since version 14

Registration status	National minimum data sets	Data set specifications	Data clusters	Data elements	Classifications	Glossary items
Standards (new)	Nil	13	33	122	1	1
Standards (revised)	20	8	6	84	7	1
Superseded	20	8	6	86	7	1
Retired	Nil	Nil	Nil	Nil	Nil	Nil

Table 2: Revised national minimum data sets

National minimum data set	Description of change	Data elements revised	Data elements added	Data elements removed
Admitted patient care NMDS 2009–2010	Revision of two data elements due to version change of related classifications	Area of usual residence Country of birth (SACC 2008)	Nil	Nil
Admitted patient care NMDS 2010–2011	Revision of seven data elements due to version change of related classifications	Activity when injured Additional diagnosis Area of usual residence External cause (admitted patient) Place of occurrence of external cause of injury (ICD-10-AM) Principal diagnosis Procedure	Nil	Nil

(continued)

Table 2 (continued): Revised national minimum data sets

National minimum data set	Description of change	Data elements revised	Data elements added	Data elements removed
Admitted patient mental health care NMDS 2009–2010	Revision of two data elements due to version change of related classifications	Area of usual residence Country of birth (SACC 2008)	Nil	Nil
Admitted patient mental health care NMDS 2010–2011	Revision of data elements due to version change of related classifications	Additional diagnosis Area of usual residence Diagnosis related group Major diagnostic category Principal diagnosis	Nil	Nil
Admitted patient palliative care NMDS 2009–2010	Revision of two data elements due to version change of related classifications	Area of usual residence Country of birth (SACC 2008)	Nil	Nil
Admitted patient palliative care NMDS 2010–11	Revision of three data elements due to version change of related classifications	Additional diagnosis Area of usual residence Principal diagnosis	Nil	Nil
Alcohol and other drug treatment services NMDS 2010–2011	Revision of two data elements due to version change of related classification	Area of usual residence Country of birth (SACC 2008)	Nil	Nil
Community mental health care NMDS 2009–2010	Revision of two data elements due to version change of related classification	Area of usual residence Country of birth (SACC 2008)	Nil	Nil
Community mental health care NMDS 2010–2011	Revision of two data elements due to version change of related classifications	Area of usual residence Principal diagnosis	Nil	Nil
Elective surgery waiting times (census data) NMDS 2009–	Addition of one data element	Nil	Indigenous status	Nil
Elective surgery waiting times (removals data) NMDS 2009–	Addition of one data element	Nil	Indigenous status	Nil
Government health expenditure NMDS 2009–2010	Revised scope statement which provides information about the purpose of the NMDS Data cluster separated into three component data clusters Revision of two data elements	Capital consumption expenses Health industry relevant organisation type	Nil	Nil

(continued)

Table 2 (continued): Revised national minimum data sets

National minimum data set	Description of change	Data elements revised	Data elements added	Data elements removed
Mental health establishments NMDS 2009–2010	Addition of two data elements	Nil	Average available beds for overnight-stay patients Average available beds for residential mental health patients	Nil
Mental health establishments NMDS 2010–2011	Revision of one data element due to version change of related classification	Geographical location of establishment	Nil	Nil
Non-admitted patient emergency department care NMDS 2010–2011	Revision of four data elements to clarify time spent in the emergency department. Revision of two data elements due to a version change of related classifications	Area of usual residence Country of birth (SACC 2008) Emergency department date of commencement of service event Emergency department time of commencement of service event Emergency department waiting time to service delivery Triage category	Nil	Nil
Perinatal NMDS 2010–2011	Addition of four data elements. Revision of two data elements due to a version change of related classifications	Area of usual residence Country of birth (SACC 2008)	Number of tobacco cigarettes smoked per day, first 20 weeks of pregnancy Pregnancy duration at the first antenatal care visit Tobacco smoking indicator, after 20 weeks of pregnancy Tobacco smoking indicator, first 20 weeks of pregnancy	Nil
Public hospital establishments NMDS 2009–2010	One data element replaced by two new data elements	Nil	Average available beds for overnight-stay patients Average available beds for same-day patients	Number of available beds for admitted patients
Public hospital establishments NMDS 2010–2011	Revision of one data element due to version change of related classification	Geographical location of establishment	Nil	Nil

(continued)

Table 2 (continued): Revised national minimum data sets

National minimum data set	Description of change	Data elements revised	Data elements added	Data elements removed
Residential mental health care NMDS 2009–2010	Revision of two data elements due to version change of related classifications	Area of usual residence Country of birth (SACC 2008)	Nil	Nil
Residential mental health care NMDS 2010–2011	Revision of three data elements due to version change of related classifications	Additional diagnosis Area of usual residence Principal diagnosis	Nil	Nil

Table 3: Revised data set specifications

DSS	Description of change	Data elements revised	Data elements added	Data elements removed
Acute coronary syndrome (clinical) DSS	Revised scope statement clarifying the data collection timeframe of the data set Revisions to 29 data elements, 70 new data elements	ECG – change location ECG – change type ECG – heart rhythm type Functional stress ischaemic and perfusion outcome result Laboratory standard – upper limit of normal range for creatine kinase myocardial band isoenzyme, total micrograms per litre Laboratory standard – upper limit of normal range for creatine kinase myocardial band isoenzyme, total units per litre Laboratory standard – upper limit of normal range for troponin assay, total micrograms per litre Person – acute coronary syndrome procedure type Person – acute coronary syndrome related medical history Person – acute coronary syndrome risk stratum Person – bleeding episode status Person – chest pain pattern Person – cholesterol level (measured)	ECG – Bundle-branch block status ECG – lead V4R presence indicator ECG – new Q waves indicator ECG – ST-segment-elevation in lead V4R indicator ECG time Electrocardiogram (ECG) date Isoenzyme, total units per litre Laboratory standard – upper limit of normal range for creatine kinase Person – acute coronary syndrome symptoms onset date Person – acute coronary syndrome symptoms onset time Person with ACS – instrumented bleeding location Person with ACS – acute coronary syndrome related clinical event time Person with ACS – lifestyle counselling type Person with ACS – non instrumented bleeding location Person with ACS – other cause of acute coronary syndrome	Nil

(continued)

Table 3 (continued): Revised data set specifications

DSS	Description of change	Data elements revised	Data elements added	Data elements removed
		<p>Person – clinical evidence status (acute coronary syndrome related medical history)</p> <p>Person – clinical procedure timing</p> <p>Person – creatine kinase myocardial band isoenzyme level (measured), total micrograms per litre</p> <p>Person – creatine kinase myocardial band isoenzyme level (measured), total units per litre</p> <p>Person – creatinine serum level, micromoles per litre</p> <p>Person – fibrinolytic drug administered Person – intravenous fibrinolytic therapy date</p> <p>Person – intravenous fibrinolytic therapy time</p> <p>Person – low-density lipoprotein cholesterol level (calculated)</p> <p>Person – primary percutaneous coronary intervention date</p> <p>Person – primary percutaneous coronary intervention time</p> <p>Person – reason for readmission following acute coronary syndrome episode</p> <p>Person – triglyceride level (measured)</p> <p>Person – troponin assay type</p> <p>Person – troponin level (measured), total micrograms per litre</p> <p>Stress test element</p>	<p>Person with ACS – pharmacotherapy type prescribed (in hospital)</p> <p>Person with ACS – pharmacotherapy type taken post discharge from hospital</p> <p>Person with ACS – type of acute coronary syndrome related clinical event experienced</p> <p>Person with acute coronary syndrome (ACS) – acute coronary syndrome related clinical event date</p> <p>Stress test – assessment of cardiac perfusion</p> <p>Stress test date</p> <p>Stress test intensity</p>

Table 3 (continued): Revised data set specifications

DSS	Description of change	Data elements revised	Data elements added	Data elements removed
Cancer (clinical) DSS (Version Standard from 22/12/2009)	Revision of 3 data elements due to version change of related classification.	Number of regional lymph nodes examined Oestrogen receptor assay result Primary site of cancer (ICDO-3 code) Regional lymph nodes positive Tumour size at diagnosis (solid tumours) Cancer treatment—target site (ICD-10-AM) Primary site of cancer (ICD-10-AM code) Surgical treatment procedure for cancer	Nil	Nil
Cardiovascular disease (clinical) DSS	Revision of one data element due to version change of related classification.	Country of birth (SACC 2008)	Nil	Nil
Health care client identification DSS	Revision of one data element due to version change of related classification.	Country of birth (SACC 2008)	Nil	Nil
Health care provider identification DSS	Revision of one data element due to version change of a related classification	Country of birth (SACC 2008)	Nil	Nil
Computer Assisted Telephone Interview demographic module DSS	Revision of one data element due to version change of related classification.	Country of birth (SACC 2008)	Nil	Nil
Injury surveillance DSS	Revision of three data elements due to version change of related classifications.	Activity when injured External cause (admitted patient) Place of occurrence of external cause of injury (ICD-10-AM)	Nil	Nil

Table 4: New data set specifications

Name	Description
Breast cancer (cancer registries) DSS	The breast cancer data set enables common, consistent and high-quality breast cancer data to be collected by state and territory cancer registries and collated nationally. This data will help inform research, policy, planning and guideline development work in the breast cancer area.
Registered chiropractic labour force DSS	All chiropractors listed with the Australian Health Practitioner Regulation Agency during the reference period. Chiropractors included in this DSS may be currently registered or they may be listed but not currently registered.
Registered dental and allied dental health professional labour force DSS	All dental and allied dental health professionals listed with the Australian Health Practitioner Regulation Agency during the reference period. Dental and allied dental health professionals included in this DSS may be currently registered or they may be listed but not currently registered.
Registered health labour force DSS	All health professionals listed with the Australian Health Practitioner Regulation Agency during the reference period. This encompasses health professions that require registration under the National Registration and Accreditation Scheme. All health professionals listed with the Australian Health Practitioner Regulation Agency during the reference period. This encompasses health professions that require registration under the National Registration and Accreditation Scheme.
Registered medical professional labour force DSS	All medical professionals listed with the Australian Health Practitioner Regulation Agency during the reference period, including: <ul style="list-style-type: none"> • medical practitioners • medical specialists • medical specialists-in-training. Medical professionals included in this DSS may be currently registered or they may be listed but not currently registered.
Registered midwifery labour force DSS	All midwives listed with the Australian Health Practitioner Regulation Agency during the reference period. Midwives included in this DSS may be currently registered or they may be listed but not currently registered.
Registered nursing professional labour force DSS	All nursing professionals listed with the Australian Health Practitioner Regulation Agency during the reference period, including: <ul style="list-style-type: none"> • enrolled nurses • registered nurses • nurse practitioners. Nursing professionals included in this DSS may be currently registered or they may be listed but not currently registered.
Registered optometry labour force DSS	All optometrists listed with the Australian Health Practitioner Regulation Agency during the reference period. Optometrists included in this DSS may be currently registered or they may be listed but not currently registered.
Registered osteopathy labour force DSS	All osteopaths listed with the Australian Health Practitioner Regulation Agency during the reference period. Osteopaths included in this DSS may be currently registered or they may be listed but not currently registered.
Registered pharmacy labour force DSS	All pharmacists listed with the Australian Health Practitioner Regulation Agency during the reference period. Pharmacists included in this DSS may be currently registered or they may be listed but not currently registered.
Registered physiotherapy labour force DSS	All physiotherapists listed with the Australian Health Practitioner Regulation Agency during the reference period. Physiotherapists included in this DSS may be currently registered or they may be listed but not currently registered.
Registered podiatry labour force DSS	All podiatrists listed with the Australian Health Practitioner Regulation Agency during the reference period. Podiatrists included in this DSS may be currently registered or they may be listed but not currently registered.
Registered psychology labour force DSS	All psychologists listed with the Australian Health Practitioner Regulation Agency during the reference period. Psychologists included in this DSS may be currently registered or they may be listed but not currently registered.

Table 5: New data clusters

Name	Description
Acute coronary syndrome clinical event cluster	The acute coronary syndrome (ACS) related clinical events are those which can negatively impact on the outcomes of a person with ACS. Information on the occurrence of these events in people with ACS is required due to an emerging appreciation of their relationship with late mortality. The clinical event cluster collects information on the timing and type of clinical events experienced during the current hospitalisation.
Acute coronary syndrome pharmacotherapy data cluster	<p>The pharmacotherapies collected in this data cluster are recommended for the management of acute coronary syndromes (ACS) in the national guidelines. The following pharmacotherapies are collected as part of this data cluster:</p> <p>Aspirin</p> <p>Angiotensin converting enzyme (ACE) inhibitor</p> <p>Angiotensin II receptor blocker</p> <p>Antithrombin</p> <p>Beta-blocker</p> <p>Clopidogrel</p> <p>Fibrinolytic</p> <p>Glycoprotein IIb/IIIa receptor antagonist</p> <p>Statin</p> <p>The pharmacotherapy cluster collects information on the type of pharmacotherapies prescribed and the timing of each prescription.</p>
Coronary artery cluster	<p>This cluster collects information on the characteristics of and interventions performed for the coronary arteries during the current hospitalisation. The coronary arteries included in this cluster are:</p> <p>Left anterior descending coronary artery</p> <p>Inferior surface artery</p> <p>Left circumflex coronary artery</p> <p>Diagonal coronary artery</p> <p>Left main coronary artery</p> <p>Posterior descending artery</p> <p>Right coronary artery</p>
Electrocardiogram cluster	<p>An electrocardiogram (ECG) measures the electrical activity of the heart over time. The evaluation of an ECG provides important diagnostic information relevant to the risk stratification, diagnosis and management of acute coronary syndromes. The electrocardiogram cluster collects information on the timing of each ECG and specific diagnostic characteristics determined from the ECG:</p> <ul style="list-style-type: none"> • ECG change type and location • Bundle-branch block status • Q waves status • ST-segment elevation in lead V4R
Functional stress test cluster	A functional stress test evaluates arterial blood flow to the heart muscle during increased cardiac work through physical exercise or pharmacological methods. The functional stress test cluster collects information on the timing, characteristics and results of a functional stress test performed during the current hospital presentation.
Government health expenditure organisation expenditure capital consumption data element cluster	The scope of this data cluster is direct government and government-funded expenditure by a health industry relevant organisation consisting of consumption of fixed capital (depreciation). These are all either health and health-related goods and services or non-health care goods and services to support the health industry relevant organisation's activities.

(continued)

Table 5 (continued): New data clusters

Name	Description
Government health expenditure organisation expenditure employee related data element cluster	The scope of this data cluster is direct government and government-funded expenditure by a health industry relevant organisation consisting mainly of wages, salaries and supplements, superannuation employer contributions, and workers compensation premiums and payouts. These are all either health and health-related goods and services or non-health care goods and services to support the health industry relevant organisation's activities.
Government health expenditure organisation expenditure purchase of goods and services data element cluster	The scope of this data cluster is direct government and government-funded expenditure by a health industry relevant organisation consisting mainly of purchases of goods and services. These are all either health and health-related goods and services or non-health care goods and services to support the health industry relevant organisation's activities.
Labour force status cluster	All health professionals renewing their registration with the Australian Health Practitioner Regulation Agency.
Main job of registered chiropractor cluster	The main job of registered chiropractors who were employed in the profession during the reference week. The main job is defined as the post or position, funded by an organisation, in which the health professional worked the most hours during the reference week in Australia. The health professional may be an employee or they may be self-employed with the organisation.
Main job of registered dental and allied dental health professional cluster	The main job of registered dental and allied dental health professionals who were employed in the profession during the reference week.
Main job of registered medical professional cluster	The main job of registered medical professionals who were employed in the profession during the reference week.
Main job of registered midwife cluster	The main job of registered midwives who were employed in the profession during the reference week.
Main job of registered nursing professional cluster	The main job of registered nursing professionals who were employed in the profession during the reference week.
Main job of registered optometrist cluster	The main job of registered optometrists who were employed in the profession during the reference week.
Main job of registered osteopath cluster	The main job of registered osteopaths who were employed in the profession during the reference week.
Main job of registered pharmacist cluster	The main job of registered pharmacists who were employed in the profession during the reference week.
Main job of registered physiotherapist cluster	The main job of registered physiotherapists who were employed in the profession during the reference week.
Main job of registered podiatrist cluster	The main job of registered podiatrists who were employed in the profession during the reference week.
Main job of registered psychologist cluster	The main job of registered psychologists who were employed in the profession during the reference week.
Second job of registered chiropractor cluster	The second job of registered chiropractors who were employed in more than one job in the profession during the reference week. The second job is defined as the post or position, funded by an organisation, in which the health professional worked the second longest hours during the reference week in Australia. The health professional may be an employee or they may be self-employed with the organisation.
Second job of registered dental and allied dental health professional cluster	The second job of registered dental and allied dental health professionals who were employed in more than one job in the profession during the reference week.
Second job of registered medical professional cluster	The second job of registered medical professionals who were employed in more than one job in the profession during the reference week.

(continued)

Table 5 (continued): New data clusters

Name	Description
Second job of registered midwife cluster	The second job of registered midwives who were employed in more than one job in the profession during the reference week.
Second job of registered nursing professional cluster	The second job of registered nursing professionals who were employed in more than one job in the profession during the reference week.
Second job of registered optometrist cluster	The second job of registered optometrists who were employed in more than one job in the profession during the reference week.
Second job of registered osteopath cluster	The second job of registered osteopaths who were employed in more than one job in the profession during the reference week.
Second job of registered pharmacist cluster	The second job of registered pharmacists who were employed in more than one job in the profession during the reference week.
Second job of registered physiotherapist cluster	The second job of registered physiotherapists who were employed in more than one job in the profession during the reference week.
Second job of registered podiatrist cluster	The second job of registered podiatrists who were employed in more than one job in the profession during the reference week.
Second job of registered psychologist cluster	The second job of registered psychologists who were employed in more than one job in the profession during the reference week.
Ventricular ejection fraction cluster	The ventricular ejection fraction is the fraction of blood pumped out of a ventricle with each heart beat. Impaired ventricular ejection fraction can be indicative of damage to the heart muscle, such as that sustained during myocardial infarction. The ventricular ejection fraction cluster collects information on the timing, measurement type and results of a ventricular ejection fraction measurement during the current hospital presentation.
Work setting hours cluster	Registered health professionals listed with the Australian Health Practitioner Regulation Agency who were employed in the profession during the reference week. They may be an employee or they may be self-employed.

Table 6: Revised data clusters

Data cluster	Description of change	Data elements revised	Data elements added	Data elements removed
Government health expenditure organisation expenditure capital consumption data element cluster	Revision of two data elements. One revision due to the revision of the data element concept name, and the second due to an addition of a permissible value.	Capital consumption expenses Health industry relevant organisation type	Nil	Nil
Government health expenditure organisation expenditure data element cluster	Revision of two data elements. One revision due to the revision of the data element concept name, and the second due to an addition of a permissible value.	Capital consumption expenses Health industry relevant organisation type	Nil	Nil
Government health expenditure organisation expenditure employee related data element cluster	Revision of one data element, due to the addition of a new permissible value.	Health industry relevant organisation type	Nil	Nil

(continued)

Table 6 (continued): Revised data clusters

Data cluster	Description of change	Data elements revised	Data elements added	Data elements removed
Government health expenditure organisation expenditure purchase of goods and services data	Revision of one data element, due to the addition of a new permissible value.	Health industry relevant organisation type	Nil	Nil
Government health expenditure organisation revenue data element cluster	Revision of one data element, due to the addition of a new permissible value. Addition of information to the collection methods.	Health industry relevant organisation type	Nil	Nil
Government health expenditure organisation function revenue data element cluster	Scope statement added, conditionality updated to mandatory	Nil	Nil	Nil

Table 7: Revised data elements

Short name	Technical name	Description of change
Activity when injured	Injury event—activity type, code (ICD-10-AM 7th edn) ANNNN	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Acute coronary syndrome procedure type	Person—acute coronary syndrome procedure type, code NN	Additional information added to Collection methods and Guide for use regarding timing of ACS procedures.
Acute coronary syndrome related medical history	Person—acute coronary syndrome related medical history, code NN	Definition revised for clarification. Collection methods revised to clarify use of supporting data elements. Insertion of new references.
Acute coronary syndrome stratum	Person—acute coronary syndrome risk stratum, code N	Definition revised for clarification. Guide for use includes additional information for ACS symptoms. Comments provide rationale for collection.
Additional diagnosis	Episode of care—additional diagnosis, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Address—country identifier (person)	Person (address)—country identifier, code (SACC 2008) NNNN	Revisions are a result of the release of the Standard Australian Classification of Countries 2008.
Area of practice – dental	Registered health professional—principal area of practice, dental code NN	The former data element was revised and replaced with four specific and targeted data elements based on the previous permissible values.
Area of practice – midwifery	Registered health professional—principal area of practice, midwifery code NN	The former data element was revised and replaced with four specific and targeted data elements based on the previous permissible values.
Area of practice – nursing	Registered health professional—principal area of practice, nursing code NN	The former data element was revised and replaced with four specific and targeted data elements based on the previous permissible values.

(continued)

Table 7 (continued): Revised data elements

Short name	Technical name	Description of change
Area of practice – psychology	Registered health professional—principal area of practice, psychology code NN	The former data element was revised and replaced with four specific and targeted data elements based on the previous permissible values
Area of usual residence	Person—area of usual residence, geographical location code (ASGC 2008) NNNNN	Value domain uses updated ASGC 2008 classification.
Area of usual residence	Person—area of usual residence, geographical location code (ASGC 2009) NNNNN	Revisions are a result of the release of the ASGC 2009.
Available bed—overnight-stay admitted care, average number of beds N[NNN.N]	Average available beds for overnight-stay patients	Value domain has been revised to 5 numeric characters in length. The object class has been revised to reference available beds and the property revised to clearly reflect the scope as overnight-stay patients.
Bleeding episode using TIMI criteria (status)	Person—bleeding episode status, Thrombolysis in Myocardial Infraction (TIMI) code N	Data element now uses specific TIMI value domain. Value domain Guide for use clarifies acceptable ranges for bleeding episodes.
Cancer staging—M stage code	Person with cancer—distant metastasis status, M stage (UICC TNM Classification of Malignant Tumours, 6th ed) code XX	Value domain updated to 6 th edition of UICC TNM Classification of Malignant Tumours. Guide for use updated to clarify that TNM staging applies to solid tumours, excluding brain tumours.
Cancer staging—N stage code	Person with cancer—regional lymph node metastasis status, N stage (UICC TNM Classification of Malignant Tumours, 6th ed) code XX	Value domain updated to 6 th edition of UICC TNM Classification of Malignant Tumours. Guide for use updated to clarify that TNM staging applies to solid tumours, excluding brain tumours.
Cancer staging—T stage code	Person with cancer—primary tumour status, T stage (UICC TNM Classification of Malignant Tumours, 6th ed) code XX[X]	Value domain updated to 6 th edition of UICC TNM Classification of Malignant Tumours. Guide for use updated to clarify that TNM staging applies to solid tumours, excluding brain tumours.
Cancer staging—TNM stage grouping code	Person with cancer—extent of primary cancer, TNM stage (UICC TNM Classification of Malignant Tumours, 6th ed) code XXXX{[X]XX}	Value domain updated to 6 th edition of UICC TNM Classification of Malignant Tumours. Guide for use updated to clarify that TNM staging applies to solid tumours, excluding brain tumours.
Cancer treatment—target site (ICD-10-AM)	Cancer treatment—target site for cancer treatment, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Capital consumption expenses	Organisation—capital consumption expenses, total Australian currency NNNNN.N	Property changed from Depreciation expenses for consistency with definition, therefore changing the data element concept and data element.
Chest pain pattern category	Person—chest pain pattern, code N	Value domain Guide for use expanded to provide additional information about chest pain.

(continued)

Table 7 (continued): Revised data elements

Short name	Technical name	Description of change
Cholesterol—LDL (calculated)	Person—low-density lipoprotein cholesterol level (calculated), total millimoles per litre N[N].N	Definition revised for clarification. Collection methods updated to reflect changes in clinical practice. Origin for information included.
Cholesterol—total (measured)	Person—cholesterol level (measured), total millimoles per litre N[N].N	Definition revised for clarification. Comments and references updated.
Clinical evidence of acute coronary syndrome related medical history	Person—clinical evidence status (acute coronary syndrome related medical history), yes/no code N	Five separate data elements for clinical evidence status consolidated into one data element.
Clinical procedure timing (status)	Person—clinical procedure timing, code N	Value domain modified to refer to a clinical procedure relating to the current hospital presentation, rather than an episode of admitted patient care.
Complication of labour and delivery	Birth event—complication, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Complications of pregnancy	Pregnancy (current)—complication, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Congenital malformations	Person—congenital malformation, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Country of birth	Person—country of birth, code (SACC 2008) NNNN	Revisions are a result of the release of the Standard Australian Classification of Countries 2008.
Creatine kinase MB isoenzyme level (micrograms per litre)	Person—creatinine kinase-myocardial band isoenzyme level (measured), total micrograms per litre N[NNN]	Guide for use modified to refer to hospital presentation rather than admission. Change to supplementary codes in value domain.
Creatine kinase MB isoenzyme level (units per litre)	Person—creatinine kinase-myocardial band isoenzyme level (measured), total units per litre N[NNN]	Value domain name changed to reflect appropriate unit of measurement – previously international units. Guide for use modified to refer to hospital presentation rather than admission. Change to supplementary codes in value domain.
Creatine kinase MB isoenzyme—upper limit of normal range (units per litre)	Laboratory standard—upper limit of normal range for creatine kinase myocardial band isoenzyme, total units per litre N[NNN]	Value domain name changed to reflect appropriate unit of measurement – previously international units.
Creatine kinase MB isoenzyme—upper limit of normal range (micrograms per litre)	Laboratory standard—upper limit of normal range for creatine kinase myocardial band isoenzyme, total micrograms per litre N[NNN]	Correction to definition.
Creatinine serum level (measured)	Person—creatinine serum level, total micromoles per litre NN[NN]	Data element name and definition revised for clarification. Additional information added to comments.
Date of intravenous fibrinolytic therapy	Person—intravenous fibrinolytic therapy date, DDMMYYYY	Definition revised for clarification.
Date of primary percutaneous coronary intervention	Person—primary percutaneous coronary intervention date, DDMMYYYY	Name and definition changed to reflect Percutaneous coronary intervention date rather than first angioplasty balloon inflation or stenting date. Guide for use provides information about PCI.

(continued)

Table 7 (continued): Revised data elements

Short name	Technical name	Description of change
Diagnosis related group	Episode of admitted patient care—diagnosis related group, code (AR-DRG v 6) ANNA	Revisions are a result of agreement to collect version 6 of the Australian Refined Diagnosis Related Groups (AR-DRG v 6).
Electrocardiogram change location	Electrocardiogram—change location, code N	Definition no longer specifies a 12 point ECG. Guide for use revised for clarity.
Electrocardiogram change type	Electrocardiogram—change type, code N	Object class changed. Collection methods contain additional information. Value domain codes have been changed to double digits.
Emergency department date of commencement of service event	Non-admitted patient emergency department service episode—service commencement date, DDMMYYYY	Revised to ensure greater consistency of collection and reporting.
Emergency department time of commencement of service event	Non-admitted patient emergency department service episode—service commencement time, hhmm	Revised to ensure greater consistency of collection and reporting.
Emergency department waiting time to service delivery	Non-admitted patient emergency department service episode—waiting time (to service delivery), total minutes NNNNN	Revised to ensure greater consistency of collection and reporting.
Employment status - health professional	Registered health professional—labour force status, registered health professional code N	Data element updated to refer to registered health professionals. Permissible values condensed.
External cause (admitted patient)	Injury event—external cause, code (ICD-10-AM 7th edn) ANN{N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Fibrinolytic drug used	Person—fibrinolytic drug administered, code N	Definition revised for clarification.
Functional stress ischaemic and perfusion outcome result	Functional stress test—iskaemic and perfusion outcome result, code N	Object class changed. Definition changed to include perfusion outcome. New value domain used.
Functional stress test element	Functional stress test—stress test element, code N	Object class changed. Definition revised for clarification.
Geographical location of establishment	Establishment—geographical location, code (ASGC 2009) NNNNN	Revisions are a result of the 2009 release of the Australian Standard Geographical Classification (ASGC 2009).
Geographical location of establishment	Establishment—geographical location, code (ASGC 2008) NNNNN	Value domain uses updated ASGC 2008 classification.
Geographical location of service delivery outlet	Service delivery outlet—geographic location, code (ASGC 2008) NNNNN	Value domain uses updated ASGC 2008 classification.
Geographical location of service delivery outlet	Service delivery outlet—geographic location, code (ASGC 2009) NNNNN	Revisions are a result of the release of the ASGC 2009.
Gestational age	Product of conception—gestational age, completed weeks N[N]	Revised to clarify the existing definition.
Health industry relevant organisation type	Health industry relevant organisation—main activity type, code NNN	Addition of category '204 Residential age care' to value domain and associated guide for use changes.
Heart rhythm type	Electrocardiogram—heart rhythm type, code N[N]	Object class changed.

(continued)

Table 7 (continued): Revised data elements

Short name	Technical name	Description of change
Histopathological grade	Person with cancer—histopathological grade, code N	Revision to definition for clarity. Guide for use expanded to clarify coding rules including breast cancer. Collection methods updated to provide information about cancer registries.
Hours worked in health profession - clinical	Registered health professional—hours worked in clinical role, total hours NNN	Data element scope has been generalised to apply to all registered health professional, rather than simply medical practitioners. As a result the object class, property and data element concept have been changed
Hours worked in health profession - total	Registered health professional—hours worked in health profession, total hours NNN	Revision has consolidated two data elements into one data element. The scope has been generalised to capture all registered health professionals.
Major diagnostic category	Episode of admitted patient care—major diagnostic category, code (AR-DRG v 6) NN	Revisions are a result of agreement to collect AR-DRG v 6.
Maternal medical conditions	Female (pregnant)—maternal medical condition, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Morphology of cancer	Person with cancer—morphology of cancer, code (ICDO-3) NNNN/N	Collection methods updated to provide more comprehensive information for cancer registries.
Neonatal morbidity	Admitted patient (neonate)—neonatal morbidity, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification 7th edition (ICD-10-AM-7 th edition).
Number of regional lymph nodes examined	Person with cancer—number of regional lymph nodes examined, total code N[N]	Additional information added to the Guide for use, including a reference to TNM Classification of Tumours, 6th Edition.
Oestrogen receptor assay result	Person with cancer—oestrogen receptor assay result, code N	Information about coding rules added to Guide for use. Collection methods updated to provide information about cancer registries. Additional information added to value domain clarifying use of supplementary codes.
Place of occurrence of external cause of injury (ICD-10-AM)	Injury event—place of occurrence, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Postpartum complication	Birth event—complication (postpartum), code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Primary site of cancer (ICD-10-AM code)	Person with cancer—primary site of cancer, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.
Primary site of cancer (ICDO-3 code)	Person with cancer—primary site of cancer, code (ICDO-3) ANN{.N[N]}	Information about cancer registries and coding rules added to Guide for use.
Principal diagnosis	Episode of care—principal diagnosis, code (ICD-10-AM 7th edn) ANN{.N[N]}	Revisions are a result of the release of the ICD-10-AM-7 th edition.

(continued)

Table 7 (continued): Revised data elements

Short name	Technical name	Description of change
Principal role – health profession	Registered health professional—principal role, health profession code N	The definition has been revised. The value domain has been revised to condense three permissible values into an 'other' category. The object class has also been revised to clarify it refers to registered health professionals only
Procedure	Episode of admitted patient care—procedure, code (ACHI 7th edn) NNNNN-NN	Revisions are a result of the release of the ACHI 7 th edition.
Reason for readmission—acute coronary syndrome	Person—reason for readmission following acute coronary syndrome episode, code N[N]	Guide for use revised to clarify conditions under which this data element should be collected i.e. if they have been discharged from an episode of admitted patient care for acute coronary syndrome within the last 28 days.
Recurrent expenditure—Department of Veterans' Affairs funded	Establishment—recurrent expenditure (Department of Veterans' Affairs funded), total Australian currency N[N(8)]	Revised to clarify the existing definition and remove perceived ambiguities.
Regional lymph nodes positive	Person with cancer—number of positive regional lymph nodes, total N[N]	Additional information added to the Guide for use, including a reference to TNM Classification of Tumours, 6th Edition. Data element now using a generic value domain which is reused across a number of cancer data elements.
Specialised mental health service—supported public housing places	Specialised mental health service—number of supported public housing places, total N[N(5)]	Revised to clarify the existing definition and remove perceived ambiguities.
Surgical treatment procedure for cancer	Cancer treatment—surgical procedure for cancer, procedure code (ACHI 7th edn) NNNNN-NN	Revisions are a result of the release of the Australian Classification of Health Interventions (ACHI) 7 th edition.
Time of intravenous fibrinolytic therapy	Person—intravenous fibrinolytic therapy time, hhmm	Additional information added to comments.
Time of primary percutaneous coronary intervention	Person—primary percutaneous coronary intervention time, hhmm	Name and definition changed to reflect Percutaneous coronary intervention time rather than first angioplasty balloon inflation or stenting time. Guide for use provides information about PCI.
Triage category	Non-admitted patient emergency department service episode—triage category, code N	Revised to ensure greater consistency of collection and reporting.
Triglyceride level (measured)	Person—triglyceride level (measured), total millimoles per litre N[N].N	Collection methods modified to reflect that new information relating to the calculation of the low-density lipoprotein - cholesterol (LDL-C).
Troponin assay type	Person—troponin assay type, code N	Value domain revised: permissible value '3 Not taken' has been removed.
Troponin assay—upper limit of normal range (micrograms per litre)	Laboratory standard—upper limit of normal range for troponin assay, total micrograms per litre N[NNN]	Correction of grammatical error in definition.
Troponin level (measured)	Person—troponin level (measured), total micrograms per litre NN.NN	Guide for use revised to remove reference to the admission, and correction of typographical error.

(continued)

Table 7 (continued): Revised data elements

Short name	Technical name	Description of change
Tumour size at diagnosis (solid tumours)	Person with cancer—solid tumour size (at diagnosis), total millimetres NNN	Guide for use expanded to include detailed information about reporting standards and coding rules.
Work setting – registered health professional	Registered health professional—work setting, code ANN	The definition, object class and value domain have been revised to reflect the work setting of a registered health professional. The property has been revised to change the scope to work setting

Table 8: New data elements

Short name	Technical name
Acute coronary syndrome related clinical event type	Person with acute coronary syndrome—type of acute coronary syndrome related clinical event experienced, code N[N]
Angina status	Person—angina status, Canadian Cardiovascular Society code N
Area of practice - dental	Registered health professional—principal area of practice, dental code NN
Area of practice - midwifery	Registered health professional—principal area of practice, midwifery code NN
Area of practice - nursing	Registered health professional—principal area of practice, nursing code NN
Area of practice - psychology	Registered health professional—principal area of practice, psychology code NN
Average available beds for hospital-in-the-home patients	Occupied bed—hospital in the home care, average number of beds N[NNN.N]
Average available beds for residential mental health patients	Available bed—residential mental health care, average number of beds N[NNN.N]
Average available beds for same-day patients	Available bed—same-day admitted care, average number of beds N[NNN.N]
Average available neonatal cots (non-special-care)	Available bed—neonatal admitted care (Non-special-care), average number of beds N[NNN.N]
Bundle-branch block status	Electrocardiogram—bundle-branch block status, code N
Coronary artery bypass graft location	Person—coronary artery bypass graft location, code N
Coronary artery stenosis location	Person—coronary artery stenosis location, code N
Country of employment in registered profession	Registered health professional—country of employment in registered profession, Australia/other country code N
C-reactive protein level (measured)	Person—C-reactive protein level (measured), total milligrams per litre N[NN].N
Creatine kinase isoenzyme—upper limit of normal range (U/L)	Laboratory standard—upper limit of normal range for creatine kinase isoenzyme, total units per litre N[NNN]
Creatine kinase level (U/L)	Person—creatinine kinase isoenzyme level (measured), total units per litre N[NNN]
Date C-reactive protein level measured	Person—C-reactive protein level measured date, DDMMYYYY
Date creatinine serum level measured	Person—creatinine serum level measured date, DDMMYYYY

(continued)

Table 8 (continued): New data elements

Short name	Technical name
Date of acute coronary syndrome related clinical event	Person with acute coronary syndrome—acute coronary syndrome related clinical event date, DDMMYYYY
Date of coronary artery bypass graft	Person—coronary artery bypass graft date, DDMMYYYY
Date of diagnostic cardiac catheterisation	Person—diagnostic cardiac catheterisation date, DDMMYYYY
Date of electrocardiogram	Electrocardiogram— electrocardiogram date, DDMMYYYY
Date of functional stress test	Functional stress test—test date, DDMMYYYY
Date of implantable cardiac defibrillator procedure	Person—implantable cardiac defibrillator procedure date, DDMMYYYY
Date of intra-aortic balloon pump procedure	Person—intra-aortic balloon pump procedure date, DDMMYYYY
Date of most recent stroke	Person—most recent stroke date, DDMMYYYY
Date of non-invasive ventilation administration	Person—non-invasive ventilation administration date, DDMMYYYY
Date of onset of acute coronary syndrome symptoms	Person—acute coronary syndrome symptoms onset date, DDMMYYYY
Date of pacemaker insertion	Person—pacemaker insertion date, DDMMYYYY
Date of rescue percutaneous coronary intervention	Person—rescue percutaneous coronary intervention date, DDMMYYYY
Date of revascularisation percutaneous coronary intervention	Person—revascularisation percutaneous coronary intervention date, DDMMYYYY
Date of ventricular ejection fraction test	Ventricular ejection fraction test—test date, DDMMYYYY
ECG - Q waves indicator	Person—electrocardiogram Q waves indicator, yes/no code N
Electrocardiogram - new Q waves indicator	Electrocardiogram—new Q waves indicator, yes/no code N
Electrocardiogram - lead V4R presence indicator	Electrocardiogram—lead V4R presence indicator, yes/no code N
Electrocardiogram - ST-segment-elevation in lead V4R	Electrocardiogram— ST-segment-elevation in lead V4R indicator, yes/no code N
Extended leave status in registered profession	Registered health professional—extended leave status in registered profession, code N
Field of medicine - medical practitioner	Registered health professional—principal field of medicine, medical practitioner code N
Functional stress test assessment of cardiac perfusion	Functional stress test—assessment of cardiac perfusion, code N[N]
Functional stress test intensity	Functional stress test— stress test intensity, code N
Functional stress test performed indicator	Person—functional stress test performed indicator, yes/no code N
Hours worked in health profession - clinical	Registered health professional—hours worked in clinical role, total hours NNN
Hours worked in health profession - non-clinical	Registered health professional—hours worked in non-clinical role, total hours NNN
Hours worked in health profession - private sector	Registered health professional—hours worked in private sector, total hours NNN
Hours worked in health profession - public sector	Registered health professional—hours worked in public sector, total hours NNN
Hours worked in health profession - total	Registered health professional—hours worked in health profession, total hours NNN

(continued)

Table 8 (continued): New data elements

Short name	Technical name
Human epidermal growth factor receptor-2 test result	Person with cancer—human epidermal growth factor receptor-2 test result, code N
Human epidermal growth factor receptor-2 test type	Person with cancer—human epidermal growth factor receptor-2 test type, code N
Instrumented bleeding location	Person with acute coronary syndrome—bleeding location, instrumented code N(N)
Intended years in health profession	Registered health professional—intended years in profession, total years NN
Jobseeker status in registered profession	Registered health professional—jobseeker status in registered profession, code N
Length of employment in health profession	Registered health professional—length of employment in profession in Australia, total years NN
Lifestyle counselling type	Person with acute coronary syndrome—lifestyle counselling type, code N
Lymphovascular invasion	Person with cancer—lymphovascular invasion, code N
Maximum stenosis coronary artery	Person—maximum stenosis coronary artery, percentage N[NN]
Month and year of birth	Person—date of birth, MMYYYY
Neo-adjuvant therapy	Person with cancer—neoadjuvant therapy indicator, code N
Non-instrumented bleeding location	Person with acute coronary syndrome—bleeding location, non-instrumented code N(N)
Number of coronary artery lesions attempted	Person—count of coronary artery lesions attempted, total number N[N]
Number of coronary artery lesions successfully dilated	Person—count of coronary artery lesions successfully dilated, total number N[N]
Number of coronary artery stents	Person—count of coronary artery stents, total number N[N]
Number of episodes of angina in last 24 hours	Person—angina episodes count (24 hours preceding hospital presentation), total number NN[N]
Number of positive sentinel lymph nodes	Person with cancer—number of positive sentinel lymph nodes, total code N[N]
Number of sentinel lymph nodes examined	Person with cancer—number of sentinel lymph nodes examined, total code N[N]
Number of tobacco cigarettes smoked per day after 20 weeks of pregnancy	Female (pregnant)—number of cigarettes smoked (per day after 20 weeks of pregnancy), number N[NN]
Number of tobacco cigarettes smoked per day first 20 weeks of pregnancy	Female (pregnant)—number of cigarettes smoked (per day first 20 weeks of pregnancy), number N[NN]
Other/Underlying cause of acute coronary syndrome	Person with acute coronary syndrome—underlying cause of acute coronary syndrome, code N
Percutaneous coronary intervention procedure type	Person—percutaneous coronary intervention procedure type, code N
Person—Australian state/territory of birth, code N	Person—Australian state/territory of birth, code N
Pharmacotherapy type prescribed for acute coronary syndrome in hospital	Person with acute coronary syndrome—pharmacotherapy type prescribed in hospital, code N[N]
Pharmacotherapy type taken for acute coronary syndrome post discharge	Person with acute coronary syndrome—pharmacotherapy type taken post discharge from hospital, code N[N]
Postcode—Australian workplace	Workplace (address)—Australian postcode, code (Postcode datafile) {NNNN}
Pregnancy duration at the first antenatal care visit	Pregnancy—estimated duration (at the first visit for antenatal care), completed weeks N[N]

(continued)

Table 8 (continued): New data elements

Short name	Technical name
Principal role – health profession	Registered health professional—principal role, health profession code N
Reason for non prescription of pharmacotherapy	Person—reason for non prescription of pharmacotherapy, code N
Residual expenditure (mental health service)—Mental Health Act Regulation or related legislation	Specialised mental health service—residual expenditure (Mental Health Act Regulation or related legislation), total Australian currency N[N(8)]
Residual expenditure (mental health service)—service development	Specialised mental health service—residual expenditure (service development), total Australian currency N[N(8)]
Retirement status in registered profession	Registered health professional—retirement status in registered profession, code N
Suburb/town/locality name (workplace)	Workplace (address)—suburb/town/locality name, text [A(50)]
Time C-reactive protein level measured	Person—C-reactive protein level measured time, hhmm
Time of acute coronary syndrome related clinical event	Person with acute coronary syndrome—acute coronary syndrome related clinical event time, hhmm
Time of diagnostic cardiac catheterisation	Person—diagnostic cardiac catheterisation time, hhmm
Time of electrocardiogram	Electrocardiogram— electrocardiogram time, hhmm
Time of implantable cardiac defibrillator procedure	Person—implantable cardiac defibrillator procedure time, hhmm
Time of intra-aortic balloon pump procedure	Person—intra-aortic balloon pump procedure time, hhmm
Time of non-invasive ventilation administration	Person—non-invasive ventilation administration time, hhmm
Time of onset of acute coronary syndrome symptoms	Person—acute coronary syndrome symptoms onset time, hhmm
Time of pacemaker insertion	Person—pacemaker insertion time, hhmm
Time of rescue percutaneous coronary intervention	Person—rescue percutaneous coronary intervention time, hhmm
Time of revascularisation percutaneous coronary intervention	Person—revascularisation percutaneous coronary intervention time, hhmm
Time of ventricular ejection fraction test	Ventricular ejection fraction test—test time, hhmm
Timing of ACE-inhibitor prescription	Person—timing of ACE-inhibitor prescription, code N
Timing of angiotensin II receptor blocker prescription	Person—timing of angiotensin II receptor blocker prescription, code N
Timing of antithrombin therapy prescription	Person—timing of antithrombin therapy prescription, code N
Timing of aspirin prescription	Person—timing of aspirin prescription, code N
Timing of beta-blocker prescription	Person—timing of beta-blocker prescription, code N
Timing of clopidogrel prescription	Person—timing of clopidogrel prescription, code N
Timing of glycoprotein lib/IIIa inhibitor prescription	Person—timing of glycoprotein lib/IIIa inhibitor prescription, code N
Timing of statin prescription	Person—timing of statin prescription, code N
Tobacco smoking indicator, after 20 weeks of pregnancy	Female (pregnant)—tobacco smoking indicator (after twenty weeks of pregnancy), yes/no code N
Tobacco smoking indicator, first 20 weeks of pregnancy	Female (pregnant)—tobacco smoking indicator (first twenty weeks of pregnancy), yes/no code N
Total blood units transfused	Person—units of blood transfused, total N[NNN]
Underlying cause of death	Person—underlying cause of death, code (ICD-10 2 nd edn) ANN-ANN

(continued)

Table 8 (continued): New data elements

Short name	Technical name
Ventricular ejection fraction measurement indicator	Person—ventricular ejection fraction test performed indicator, yes/no code N
Ventricular ejection fraction test result (percentage)	Ventricular ejection fraction—test result, percentage N[N].N
Ventricular ejection fraction test result (code)	Ventricular ejection fraction—test result, code N
Ventricular ejection fraction test type	Ventricular ejection fraction test—test type, code N
Visa type - health professional	Registered health professional—visa type, code AANNN
Work sector - health professional	Registered health professional—work sector in health profession, code N
Work setting - chiropractor	Registered health professional—work setting, chiropractor code ANN
Work setting - dental	Registered health professional—work setting, dental code ANN
Work setting - medical practitioner	Registered health professional—work setting, medical practitioner code ANN
Work setting - midwife	Registered health professional—work setting, midwife code ANN
Work setting - nurse	Registered health professional—work setting, nurse code ANN
Work setting - optometrist	Registered health professional—work setting, optometrist code ANN
Work setting - osteopath	Registered health professional—work setting, osteopath code ANN
Work setting - pharmacist	Registered health professional—work setting, pharmacist code ANN
Work setting - physiotherapist	Registered health professional—work setting, physiotherapist code ANN
Work setting - podiatrist	Registered health professional—work setting, podiatrist code ANN
Work setting - psychologist	Registered health professional—work setting, psychologist code
Work setting - registered health professional	Registered health professional—work setting, code ANN

Table 9: Revised classification schemes

Name	Description of change
Australian Classification of Health Interventions (ACHI) 7th edition	Revisions are a result of the release of the ACHI 7th edition.
Australian Refined Diagnosis Related Groups version 6	Revisions are a result of agreement to collect AR-DRG v 6.
Australian Standard Geographical Classification 2008	Australian Standard Geographical Classification 2008 replaces Australian Standard Geographical Classification 2007.
Australian Standard Geographical Classification 2009	Revisions are a result of the release of the ASGC 2009.
International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification 7th edition	Revisions are a result of the release of the ICD-10-AM 7th edition.
International Union against Cancer (UICC) TNM Classification of Malignant Tumours 6th edition	International Union against Cancer (UICC) TNM Classification of Malignant Tumours 6th edition replaces TNM Classification of Malignant Tumours 5th edition.
Standard Australian Classification of Countries 2008.	Standard Australian Classification of Countries 2008 replaces Standard Australian Classification of Countries 1998.

Table 10: New classification schemes

Name
International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, (2nd edition)

Table 11: Revised glossary items

Name	Description
Residential mental health care service	Revised to clarify the existing definition and remove perceived ambiguities.

Table 12: New glossary items

Name
Average for the counting period
