

# Appendix 7: Establishments contributing to this report

This section presents lists of the establishments that contributed data to this report. Table A7.1 lists the public psychiatric hospitals that contributed establishment-level data to NPHEd, reported in Chapter 4. Table A7.2 lists the public community mental health establishments that contributed establishment-level data to NCMHED, also reported in Chapter 4.

Table A7.3 lists the public psychiatric and acute care hospitals that contributed hospital morbidity data for one or more psychiatric units or wards to the NHMD, reported in Chapter 3. Private hospitals also contributed this form of data to the NHMD and Chapter 3, but cannot be identified in the data supplied to the AIHW. For this reason, private hospitals were not included in Table A7.3. A full list of the public and private hospitals contributing to the NHMD for 1999–00 is available at <http://www.aihw.gov.au/publications/hse/ahs99-00/index.html>.

**Table A7.1: Public psychiatric hospitals reporting to NPHEd for 1999–00**

State or Territory	Establishment name
