*General practitioner (GP):* A medical practitioner who provides primary comprehensive and continuing care to patients and their families within the community (Royal Australian College of General Practitioners).

*Medication:* Medication that is prescribed, provided by the GP at the encounter or advised for over-the-counter purchase.

*Medication rates:* The rate of use of all medications including medications that were prescribed, supplied by the GP and advised for over-the-counter purchase.

*Medication status:*
- **New:** The medication prescribed/provided at the encounter/advised is being used for the management of the problem for the first time.
- **Continuation:** The medication prescribed/provided at the encounter/advised is a continuation or repeat of previous therapy for this problem.
- **Old:** See Continuation.

*Morbidity:* Any departure, subjective or objective, from a state of physiological wellbeing. In this sense, sickness, illness and morbid conditions are synonymous.

*Patient status:* The status of the patient to the practice.
- **New patient:** The patient has not been seen before in the practice.
- **Old patient:** The patient has attended the practice before.

*Prescribed rates:* The rate of use of prescribed medications (i.e. does not include medications that were GP-supplied or advised for over-the-counter purchase).

*Problem managed:* See Diagnosis/problem.

*Provider:* A person to whom a patient has access when contacting the health care system.

*Reasons for encounter (RFEs):* The subjective reasons given by the patient for seeing or contacting the general practitioner. These can be expressed in terms of symptoms, diagnoses or the need for a service.

*Recognised GP:* A medical practitioner who is:
- vocationally recognised under Section 3F of the Health Insurance Act, or
• a holder of the Fellowship of the Royal Australian College of General Practitioners who participates in, and meets the requirements for, quality assurance and continuing medical education as defined in the RACGP Quality Assurance and Continuing Medical Education Program, or

• undertaking an approved placement in general practice as part of a training program for general practice leading to the award of the Fellowship of the Royal Australian College of General Practitioners or undertaking an approved placement in general practice as part of some other training program recognised by the RACGP as being of equivalent standard.6

Referral: The process by which the responsibility for part or all of the care of a patient is temporarily transferred to another health care provider. Only new referrals to specialists and allied health professionals and for hospital and residential aged care facility admissions arising at a recorded encounter are included. Continuation referrals are not included. Multiple referrals can be recorded at any one encounter.

Repatriation health card: An entitlement card provided by the Department of Veterans’ Affairs which entitles the holder to access a range of Repatriation health care benefits, including access to prescription and other medications under the Pharmaceutical Benefits Scheme.

Rubric: The title of an individual code in ICPC-2.

Torres Strait Islander: The patient identifies himself or herself as a Torres Strait Islander person.
