

Appendix 6: List of tables

Mental health in context

Table 1.2.1:	Mental disorder deaths per 100,000 population, mental disorder average length of stay and psychiatric care beds per 1,000 population, OECD member countries, 1995 and 1996.....	5
Table 1.2.2:	Prevalence of common mental disorders in Australia,1997.....	8
Table 1.2.3:	Prevalence of mental disorders by country of birth, Australia, 1997	10
Table 1.2.4:	Prevalence of selected mental disorders by geographic area, Australia,1997	10
Table 1.2.5:	Low-prevalence disorder study: age group by sex	11
Table 1.2.6:	Low-prevalence disorder study: country of birth by sex.....	11
Table 1.2.7:	Low-prevalence disorder study: type of accommodation in past month by sex.....	12
Table 1.2.8:	Low-prevalence disorder study: disorder by diagnostic category.....	12
Table 1.2.9:	Service use of persons with a selected mental disorder.....	13
Table 1.2.10:	Self-reported hospital service used in year before interview.....	14
Table 1.2.11:	Self-reported hospital services: type of stay in year before interview.....	14

Overview of this report

Table 1.3.1:	Data elements that constitute the National Minimum Data Set— institutional mental health care.....	17
Table 1.3.2:	Specialised and general care for all mental health separations, Australia, 1997–98.....	22
Table 1.3.3:	Mental health principal diagnosis by length of stay, Australia, 1997–98.....	23
Table 1.3.4:	Mental health principal diagnosis by type of care, Australia, 1997–98.....	24

Short-stay patients with a mental health principal diagnosis—patient characteristics

Table 2.1.1:	Mental health principal diagnosis of short-stay patients by type of separation, Australia, 1997–98.....	30
--------------	---	----

Table 2.1.2:	Mental health principal diagnosis of short-stay patients by type of care, Australia, 1997–98.....	31
Table 2.1.3:	Specialised and general care of short-stay patients with a mental health principal diagnosis, States and Territories, 1997–98.....	32
Table 2.1.4:	Specialised and general care of short-stay patients with a mental health principal diagnosis by hospital sector, Australia, 1997–98.....	33
Table 2.1.5:	Specialised and general care of short-stay patients with a mental health principal diagnosis by disorder group, States and Territories, 1997–98.....	34
Table 2.1.6:	Specialised and general care of short-stay patients with a mental health principal diagnosis by gender and age group, Australia, 1997–98.....	36
Table 2.1.7:	Reported Indigenous status of short-stay patients with a mental health principal diagnosis, Australia, 1997–98.....	37
Table 2.1.8:	Area of usual residence of short-stay patients with a mental health principal diagnosis, States and Territories, 1997–98.....	38
Table 2.1.9:	Mental health principal diagnosis separations of short-stay patients by country of birth, Australia, 1997–98.....	40
Table 2.1.10:	Mental health principal diagnosis patient days and psychiatric care days of short-stay patients by country of birth, Australia, 1997–98.....	41
Table 2.1.11:	Thirty procedures with the highest number of separations, short-stay patients with a mental health diagnosis, Australia, 1997–98.....	42

Short-stay patients with a mental health principal diagnosis—service related characteristics

Table 2.2.1:	Average and median length of stay, short-stay overnight separations with a mental health principal diagnosis by hospital sector, States and Territories, 1997–98.....	46
Table 2.2.2:	Average and median length of stay in psychiatric care, short-stay overnight separations with a mental health principal diagnosis, by hospital sector, States and Territories, 1997–98.....	47
Table 2.2.3:	Average and median length of stay of short-stay overnight separations with a mental health principal diagnosis in general care only, States and Territories, 1997–98.....	48
Table 2.2.4:	Average and median length of stay, short-stay overnight separations with a mental health principal diagnosis by sex, States and Territories, 1997–98.....	49

Table 2.2.5:	Average length of stay, short-stay overnight separations with a mental health principal diagnosis, public acute hospitals, States and Territories, 1997–98.....	50
Table 2.2.6:	Average length of stay, short-stay overnight separations with a mental health principal diagnosis, private hospitals, States and Territories, 1997–98.....	51
Table 2.2.7:	Average length of stay, short-stay overnight separations with a mental health principal diagnosis, public psychiatric hospitals, States and Territories, 1997–98.....	52
Table 2.2.8:	Median length of stay, short-stay overnight separations with a mental health principal diagnosis, public acute hospitals, States and Territories, 1997–98.....	53
Table 2.2.9:	Median length of stay, short-stay overnight separations with a mental health principal diagnosis, private hospitals, States and Territories, 1997–98.....	54
Table 2.2.10:	Median length of stay, short-stay overnight separations with a mental health principal diagnosis, public psychiatric hospitals, States and Territories, 1997–98.....	55
Table 2.2.11:	Mental health legal status, short-stay separations with a mental health principal diagnosis by hospital sector, States and Territories, 1997–98.....	56
Table 2.2.12:	Mental health legal status, short-stay patients with a mental health principal diagnosis, Private hospitals, Australia, 1997–98.....	57
Table 2.2.13:	Mental health legal status, short-stay patients with a mental health principal diagnosis, Public hospitals, Australia, 1997–98.....	58
Table 2.2.14:	Mental health legal status, short-stay patients with a mental health principal diagnosis by gender and age group, Australia, 1997–98.....	59

Long-stay patients with a mental health principal diagnosis

Table 2.3.1:	Mental health principal diagnosis for long-stay patients by type of care, Australia, 1997–98.....	62
Table 2.3.2:	Specialised and general care of long-stay patients with a mental health principal diagnosis, States and Territories, 1997–98.....	63
Table 2.3.3:	Specialised and general care of long-stay patients with a mental health principal diagnosis by gender and age group, Australia, 1997–98.....	64
Table 2.3.4:	Average and median length of stay of long-stay separations with a mental health principal diagnosis by hospital sector, States and Territories, 1997–98.....	65

Table 2.3.5:	Average and median length of stay of long-stay separations with a mental health principal diagnosis by sex, States and Territories, 1997–98.....	65
Table 2.3.6:	Average and median length of stay in psychiatric care of long-stay separations with a mental health principal diagnosis, States and Territories, 1997–98.....	66
Table 2.3.7:	Average and median length of stay of long-stay separations with a mental health principal diagnosis in general care only, States and Territories, 1997–98.....	66
Table 2.3.8:	Mental health legal status of long-stay patients with a mental health diagnosis by sex and age group, Australia, 1997–98.....	67
Table 2.3.9:	Thirty procedures with the highest number of separations, long-stay patients with a mental health principal diagnosis by principal procedure, Australia, 1997–98.....	68

Other patients with specialised care

Table 2.4.1:	Separations with specialised care but no mental health principal diagnosis by principal and additional diagnosis, Australia, 1997–98.....	70
Table 2.4.2:	Separations with specialised care but no mental health principal diagnosis, States and Territories, 1997–98.....	71
Table 2.4.3:	Separations with specialised care but no mental health principal diagnosis by mental health legal status and hospital sector, Australia, 1997–98.....	72

Table 2.4.4:	Separations with specialised care but no mental health principal diagnosis by mental health legal status, age group and sex, Australia, 1997–98.....	73
--------------	--	----

Psychiatric hospitals

Table 3.1.1:	Number of public psychiatric hospitals and available beds, States and Territories, 1997–98.....	75
Table 3.1.2:	Number of public psychiatric hospitals and available beds, Australia, 1989–90 to 1997–98.....	75
Table 3.1.3:	Number of private psychiatric hospitals and available beds, States and Territories, 1997–98.....	75
Table 3.1.4:	Number of full-time equivalent staff, staff per 1,000 separations and staff per 1,000 patient days, public psychiatric hospitals, States and Territories, 1997–98.....	76
Table 3.1.5:	Number of full-time equivalent staff, staff per 1,000 separations and staff per 1,000 patient days, private psychiatric hospitals, States, 1997–98.....	76
Table 3.1.6:	Recurrent expenditure (\$'000) public psychiatric hospitals, States and Territories, 1997–98.....	77
Table 3.1.7:	Recurrent expenditure (\$'000) private psychiatric hospitals, States, 1997–98.....	78
Table 3.1.8:	Revenue (\$'000) public psychiatric hospitals, States and Territories, 1997–98.....	78

Acute hospitals

Table 3.2.1:	Number of public acute hospitals with specialised psychiatric units or wards, States and Territories, 1997–98.....	79
--------------	--	----

Mental health care in general practice

Table 4.1.1:	Number of patient reasons for encounter (RFE) by most frequently provided mental health reasons.....	83
Table 4.1.2:	Number of problems managed for mental health problems by sex.....	85

Table 4.1.3:	Number and type of referrals for specialist mental health services made by GPs.....	86
Table 4.1.4:	Number of referrals made for most frequently managed mental health problems by sex.....	87
Table 4.1.5:	Number and type of psychological treatments administered by GPs.....	88
Table 4.1.6:	Number of psychological treatments administered by GPs for the mental health problems most frequently managed by these treatments.....	88
Table 4.1.7:	Number of prescriptions administered for mental health problems most frequently managed by medication.....	89
Table 4.1.8:	Distribution of drugs most commonly prescribed for mental health problems by drug group and generic drug name.....	90

Clinical service delivery for low prevalence disorders

Table 4.2.1:	Persons with outpatient or community health service contact: services used in year before interview.....	91
Table 4.2.2:	Persons with outpatient or community health service contact: health professionals most frequently seen at service in year before interview.....	91

Community services data development

Table 5.2.1:	Endorsed National Minimum Data Set—community mental health care, establishment-level data elements agreed for collection from 1 July 1998.....	96
Table 5.2.2:	Proposed National Minimum Data Set—community mental health care, showing data elements that are agreed for collection at the patient level by States and Territories.....	96

Appendix 2

Table A2.1a:	General care same day separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis, States and Territories, 1997–98.....	106
Table A2.1b:	Specialised care same day separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis, States and Territories, 1997–98.....	107

Table A2.2:	Overnight separations of short-stay patients with a mental health principal diagnosis receiving general care only, by principal diagnosis, States and Territories, 1997–98.....	108
Table A2.3:	Overnight separations of short-stay patients with a mental health principal diagnosis who received some specialised care, by principal diagnosis, States and Territories, 1997–98.....	109
Table A2.4:	Patient days for overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis, States and Territories, 1997–98.....	110
Table A2.5:	Total psychiatric care days for overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis, States and Territories, 1997–98.....	111
Table A2.6a:	Same-day separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, males in general care, Australia, 1997–98.....	112
Table A2.6b:	Same-day separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, females in general care, Australia, 1997–98.....	113
Table A2.6c:	Same-day separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, males in specialised care, Australia, 1997–98.....	114
Table A2.6d:	Same-day separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, females in specialised care, Australia, 1997–98.....	115
Table A2.7a:	Overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, males, Australia, 1997–98.....	116
Table A2.7b:	Overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, females, Australia, 1997–98.....	117
Table A2.7c:	Overnight separations of short-stay patients with a mental health principal diagnosis with specialised care, by principal diagnosis and age group, males, Australia, 1997–98.....	118
Table A2.7d:	Overnight separations of short-stay patients with a mental health principal diagnosis with specialised care, by principal diagnosis and age group, females, Australia, 1997–98.....	119
Table A2.8a:	Patient days for overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, males, Australia, 1997–98.....	120

Table A2.8b: Patient days for overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, females, Australia, 1997–98.....	121
Table A2.9a: Total psychiatric care days for overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, males, Australia, 1997–98.....	122
Table A2.9b: Total psychiatric care days for overnight separations of short-stay patients with a mental health principal diagnosis, by principal diagnosis and age group, females, Australia, 1997–98.....	123
Table A2.10a: Same day separations for patients with a mental health principal diagnosis by area of usual residence, States and Territories, 1997–98.....	124
Table A2.10b: Overnight separations of short-stay patients with a mental health principal diagnosis by area of usual residence, States and Territories, 1997–98.....	126

Appendix 3

Table A.3.1: Separations of long-stay patients with a mental health principal diagnosis receiving general care only, by principal diagnosis, States and Territories, 1997–98.....	129
Table A3.2: Separations of long-stay patients with a mental health principal diagnosis receiving some specialised care, by principal diagnosis, States and Territories, 1997–98.....	130
Table A3.3: Patient days of long-stay patients with a mental health principal diagnosis, by principal diagnosis, States and Territories, 1997–98.....	131
Table A3.4: Total psychiatric care days of long-stay patients with a mental health principal diagnosis, by principal diagnosis, States and Territories, 1997–98.....	132
Table A3.5a: General care separations of long-stay patients with a mental health principal diagnosis by gender, age group and principal diagnosis, males, Australia, 1997–98.....	133
Table A3.5b: Specialised care separations of long-stay patients with a mental health principal diagnosis by age group and principal diagnosis, males, Australia, 1997–98.....	134
Table A3.5c: General care separations of long-stay patients with a mental health principal diagnosis by gender, age group and principal diagnosis, females, Australia, 1997–98.....	135
Table A3.5d: Specialised care separations of long-stay patients with a mental health principal diagnosis by age group and principal diagnosis, females, Australia, 1997–98.....	136

Table A3.6a:	Patient days of long-stay patients with a mental health principal diagnosis, by age group and principal diagnosis, males, States and Territories, 1997–98.....	137
Table A3.6b:	Patient days of long-stay patients with a mental health principal diagnosis, by age group and principal diagnosis, females, States and Territories, 1997–98.....	138
Table A3.7:	Total psychiatric care days of long-stay patients with a mental health diagnosis by sex, age group and principal diagnosis, Australia, 1997–98.....	139
Table A3.8a:	Average length of stay for long-stay overnight separations with a mental health principal diagnosis by principal diagnosis, public acute hospitals, States and Territories, 1997–98.....	141
Table A3.8b:	Median length of stay for long-stay overnight separations with a mental health principal diagnosis by principal diagnosis, private hospitals, States and Territories, 1997–98.....	142
Table A3.8c:	Average length of stay for long-stay overnight separations with a mental health principal diagnosis by principal diagnosis, public psychiatric hospitals, States and Territories, 1997–98.....	143
Table A3.8d:	Median length of stay for long-stay overnight separations with a mental health principal diagnosis by principal diagnosis, public acute hospitals, States and Territories, 1997–98.....	144
Table A3.8e:	Median length of stay for long-stay overnight separations with a mental health principal diagnosis by principal diagnosis, private hospitals, States and Territories, 1997–98.....	145
Table A3.8f:	Median length of stay for long-stay overnight separations with a mental health principal diagnosis by principal diagnosis, public psychiatric hospitals, States and Territories, 1997–98.....	146

Appendix 4

Tables A4.1:	Separations, patient days and psychiatric care days of patients with a mental health principal diagnosis, public acute and private hospitals, Australia, 1997–98.....	148
Tables A4.2:	Separations, patient days and psychiatric care days of patients with a mental health diagnosis, public psychiatric hospitals, Australia, 1997–98.....	149

Appendix 5

Table A5.1: Estimated resident population by age group and sex, States and Territories, 31 December 1997.....151

Table A5.2: Estimated resident population by age group and sex, States and Territories, 30 June 1991.....152

Table A5.3: Projected Aboriginal and Torres Strait Islander population by age group and sex, States and Territories, 30 June 1997.....153
