Note

- The population of this table is young people who first had juvenile justice supervision during 2000-01 while aged 10-14 years. The (number of supervision periods) experienced per young person is affected by how old each client was at the start of the collection period. For example young people aged 17 in 2000-01 could only accumulate supervision periods in 2000-01 and 2001-02 (in most jurisdictions). Young people aged 10 to 14 years in 2000-01 can accumulate supervision periods in all four years in most jurisdictions
- This table excludes young people with unknown age.
